### Resolution for Restructure

The purpose of this document is to have ASI support my pursuit for this restructure. In order for this Restructure to be successfully, the Academic Senate needs to approve the following terms, so even if the ASI Board of Directors were to approve this resolution, we would only be take this restructure as far as possible without touching the Academic Senator positions. So this resolution is a request for myself to go forward and try to convince the Academic Senate to adjust their constitution to fit this model.

### New Model:

#### Step 1:

College representatives establish student college councils. Student Councils are open to all students within that college, but the base membership consists of at least 1 student per department with all departments represented in the council. There will also be the College Representatives and the Dean/ Dean's Designee on the committee to use the information that is gathered to benefit the students within that college.

#### Step 2:

Once the Council members are selected, they'll be asked to sit on various committees within and outside of the college and report what's happening back to the college representatives. Other

Committee members will be assigned to college representatives based upon their college. The College reps will act as the connection between those students on University committees to ASI.

Step 3:

The Academic Senate Constitution will be adjusted to reflect the merging of college reps and academic senators. Instead of having 12 College Reps and 5 Academic Senators, the new structure would be 6 College Reps and 6 College senators where each college rep and senator would work directly with each other, the council, and the college. The College Senator would sit on the Academic Senate and work with committee members to know what's happening on committees while the College Rep would collect information on the status of the college and work with college administrators to help fix the college. Both College representatives and senators will aid each other in any way possible.
