<b>Position:</b>	Vice President for Administration	<b>Wednesday:</b>	8 am-7:25 pm
<b>Major:</b>	Urban Learning	<b>Thursday:</b>	All day
<b>Class:</b>	Graduate	<b>Friday:</b>	All day

**1. What previous experience have you had in the area in which you are applying for?**

I am currently in my second term as the Charter College of Education, so I have knowledge of ASI and what its current projects are. According to the position description, VPA works with administrative units which I have had much experience in. Outside of ASI, I have 7 years of experience working in an office setting where I dealt with the ongoings of our office and staff by participating in office restructures, holiday/celebratory parties, management of meetings, assisting with performance evaluations, and execution of staff trainings. Within ASI I have worked on issues that related to the administrative responsibilities of a VPA like the office holiday/end of the year party and ADA compliance in the office. In addition to being well versed about ASI and administrative unit responsibilities, I had the previous VPA as my direct report. Our meetings would be sessions of collaboration and sharing where he would inform me about the various commissioners events and initiatives. We would share ideas of how to collaborate across areas as a way to build connections between the commissioners and college representatives.

**2. State briefly why are you are applying and/or are interested in this position**

My biggest regret during the last election season was not running for an executive position. ASI has helped me find my role as a student leader, but I feel like I have a lot of untapped potential to grow as an individual. I want to finish off my year with ASI in a position with more responsibility and with the chance to contribute to the organization and students of this campus in a way that I haven't before.

**3. What do you feel are some of the major problems facing the students of CSULA?**

One of my passions is advocacy for students with disabilities. I still feel that the campus is not disability friendly and that accessing spaces is a difficulty for various students. I find that a big part of this issue is lack of understanding of ADA compliance and how it effects office space, buildings, and the rest of the campus space here at Cal State LA. This is an issue that I have brought up about our own office on a number of occasions which would fall under the duties and responsibilities of the VPA.

**4. List activities and/or organizations that you have been involved with (on or off campus)**

I am currently one of the Undergraduate Academic Senators as well as State Lobby Corps Officer. I advocate for students on all matters of Academic affairs as well as any matters that may pertain to student life on the Student Policy Committee. I am currently assisting with CHES in securing meetings with state legislators and assisting Marcos with the delegation of students ASI will be sending. Moreover, I have worked on two adhoc committees to better improve ASIs internal workings and accountability, as well as elevating the on going issue in regards to funding the Anna Bing Child Care Center. Additionally, I have worked on multiple programs, such but not limited to, the 51st Assembly District debate and Open Deliberation. These are just a few of the many endeavors I have been apart of in my time here at ASI.

**2. State briefly why are you are applying and/or are interested in this position**

In regards to the organization, I want to bring stability to the position. Many important task are needed to be completed, the most pressing being impartial staff evaluations. The additional goals I want to take on are working with the Public Relations & Outreach Commissioner to increase the visibility and brand of ASI. Lastly, I want to work with the Veterans Resource Center to build a strong relationship with one of the departments we technically have a direct link too. To assist our former and current servicemen and women in achieving academic success.

Personally, This is a rare opportunity for personal growth. I am seeking a position that will help me strengthen my leadership skills. I want to take on new challenges and help this organization grow to better assist students

**3. What do you feel are some of the major problems facing the students of CSULA?**

Student homelessness and food insecurity are the most pressing issues on campus, along with a statewide tuition increase. These issues are exacerbated when there is a strong disconnect between the students their student government. Additionally, when their student government is more invested in internal restructuring than addressing issues that pertain to students academic success, this creates a major problem.

**2. State briefly why are you are applying and/or are interested in this position**

I am interested in this position because I want to make an impact on this campus. I have dealt with some of the problems that this campus has such as this university does not have a strong sense of community. Students here go to school and as soon as class is over they go home. With no student engagement it feels as though college is just about attending classes, studying and going home. They don't stay around to utilize our campus' resources such as events and student organizations that are catered to our students' studies. This is one example of a school problem that I would like to address and with this position I hope to minimize the amount of students who see Cal State LA as just a commuter school when I know that it could be much more than that.

**3. What do you feel are some of the major problems facing the students of CSULA?**

A few of the major problems that students have are parking, not enough classes being offered, and that the student life around college is almost non-existent.

**4. List activities and/or organizations that you have been involved with (on or off campus)**

Honors College  
Business Honors Program  
Phi Kappa Phi  
Golden Key International Honour Society  
Hispanic Business Society
