Focus with Precision

Whether raising your game to SLR level photography or having fun with a feature-rich, versatile SLR you can use pretty much anywhere, the EOS 80D camera is your answer. It features an impressive 45-point all cross-type AF system* that provides high-speed, highly precise AF in virtually any kind of light. To help ensure photographers don't miss their shot, an Intelligent Viewfinder with approximately 100% coverage provides a clear view and comprehensive image data. Improvements like a powerful 24.2 Megapixel (APS-C) CMOS sensor and Dual Pixel CMOS AF for Live View shooting enhance the EOS 80D's performance across the board. Complementing the EOS 80D's advanced operation are built-in wireless connectivity and Full HD 60p movies that can be saved as MP4s for easy sharing. Merging power, precision and operability, the EOS 80D is a dynamic SLR camera for anyone ready to realize their creative vision.

* The number of AF points, cross-type AF points and Dual cross-type AF points vary depending on the lens used.

Specifications:

- Sensor: CMOS, 22.5 x 15 mm
- Pixels: Actual: 25.8 Megapixel Effective: 24.2 Megapixel
- Resolution: 24 MP: 6000 x 4000
- LCD Screen: 3" Rear Touchscreen Swivel LCD (1,040,000)
- Lens: EF-S 18-55mm f/3.5-5.6 IS STM lens + Canon EF-S 55-250mm f/4-5.6 IS STM Lens
- Media Storage: SD/SDHC/SDXC
- Dimensions: 5.47 x 4.14 x 3.09 in. / 139.0 x 105.2 x 78.5 mm
- Weight: 22.93 oz. / 650g (Body only; excluding the battery, card, body cap and eye cup)

Features

- 45-point all cross-type AF system* allows for superb autofocus when shooting with the optical viewfinder and focusing area selection modes.
- Intelligent Viewfinder with approximately 100% viewfinder coverage.
- 24.2 Megapixel (APS-C) CMOS sensor helps provide impressive, high-resolution results.
- Improved Dual Pixel CMOS AF helps you shoot video with smooth, fast and accurate autofocus, and stills with instant and precise autofocus.
- Built-in Wi-Fi®** allows you to wirelessly transfer images and movies to compatible devices or share on select social networking sites.
- Built-in NFC*** allows quick and simple pairing to a compatible Android™ device and the Canon Connect Station CS100 device.
- Full HD 60p helps capture brilliant results in MP4 format for high-quality shooting and easy movie sharing on social networking sites.
- Vari-angle Touch Screen 3.0-inch Clear View LCD II monitor enables flexible positioning and clear viewing even when outdoors.
- DIGIC 6 Image Processor helps provide superb image quality and processing speed.
- ISO 100–16000 (expandable to 25600) for stills and ISO 100–12800 (expandable to 16000/25600) for movies for outstanding performance in bright to dim light.
- More precise autofocus is enabled by the 7560-pixel RGB+IR metering sensor which enables Color Tracking to accurately detect skin color.
- High-speed continuous shooting up to 7.0 fps helps you to capture the action.
- Express your creativity with HDR Movie, Time-Lapse Movie and Creative Filter options.
- Anti-flicker helps compensate for flickering light sources and provides consistent exposure and color during continuous shooting.
- Shutter durability tested up to 100,000 cycles.

Feedback

* The number of AF points, cross-type AF points and Dual cross-type AF points vary depending on the lens used.

** Compatible with iOS® versions 7.1/8.4/9.0, Android™ smartphone and tablet versions 4.0/4.1/4.2/4.3/4.4/5.0/5.1. *** Compatible with Android™ smartphone and tablet versions 4.0/4.1/4.2/4.3/4.4/5.0/5.1.

45-point all cross-type AF system* allows for superb autofocus when shooting with the optical viewfinder and focusing area selection modes.

For next-level AF operation, the EOS 80D camera has a wide-area, 45-point, all cross-type AF system*. Excellent in dim light, it has improved low luminance performance to EV -3 and is compatible with most EF lenses (lenses with maximum apertures of f/8 or higher, and some lenses with extenders attached may operate at a maximum of 27 points). It also features 4 types of AF area selection modes useful for a number of different AF situations. These include user-selectable Single-point AF, Zone AF, where users can select from one of 9 predefined AF zones; Large Zone AF, where one of three zones can be selected; and 45-point AF auto selection, where the camera detects the AF point automatically.

* The number of AF points, cross-type AF points and Dual cross-type AF points vary depending on the lens used.

DESKTOP DRIVE

Data Sheet

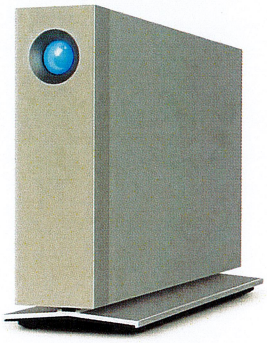
More Compatibility, Space, and Reliability.
Less of Nothing.

- Professional speeds of up to 240MB/s[1]
- Up to 10TB for large photo and video project storage and archive
- USB-C and dual Thunderbolt™ 3 ports for universal compatibility
- Aluminum unibody for reduced noise and vibration

design by neil poulton

Product Overview

The perfect complement to SSD-based laptops and all-in-one computers, the LaCie d2 Thunderbolt 3 massively upgrades your capacity to up to 10TB for professional bandwidth-intensive creative applications. Featuring Thunderbolt 3 and USB 3.1 speeds through the USB-C port, the LaCie d2 performs capably on late-model laptops, such as the new MacBook Pro—as well as on USB 3.0 computers. It's also the first LaCie product to feature the Seagate® BarraCuda® Pro HDD for industry-leading performance and reliability, backed by a 5-year limited warranty.



Use Cases

- Storage Capacity Expansion: Added capacity for SSD-based laptops
- Photo Editing: Store massive Lightroom® library
- Video Editing: 4K video workflow storage and archive

1 Actual data rates may vary depending on operating environment and other factors, such as chosen interface and disk capacity.
