

The Importance of Posting A.S.I. Agendas & Recording Minutes

Hello Committee Chairpersons,

Associated Students, Inc. must follow the Gloria Romero Act of 2000 (see attached) which requires us to make our agendas and minutes accessible to our constituents and the general public.

Below you will find the expectations & procedures for posting A.S.I. agendas and minutes. We will review the following at an upcoming Executive Committee meeting to ensure we are all on the same page.

Posting Agendas:

Please review the attached sample agenda for your committee(s) and the blank minutes recorder. The agenda must be posted 72 hours prior to an official meeting and the minutes filed in the Administrative Office with the Administrative Assistant to the Executive Director and posted on the website 48 hours after being approved. Posted where you ask?

There are two places where the agenda must be posted. The most important place is the bulletin board directly outside the A.S.I. Office, U-SU Room 203. It is your responsibility to ensure the physical agenda is posted up by the designated time 72 hours before your meeting.

The second posting place is on the website. You are to e-mail a soft copy (in Microsoft Word) of the agenda to the staff support that you work with or the Administrative Assistant to the Executive Director. Once received the document will be formatted into a PDF and posted on the meeting node on the website.

Finally, it is the committee Chair's responsibility to send a reminder of the meeting node to each committee member and the Board of Directors.

Recording & Posting Minutes:

Board and other committee minutes are an official record of A.S.I.'s corporate business. Minutes reflect the historical record of action or evidence of interaction. Minutes are internal documentation of procedure to help provide information to new directors and the students we serve. They also serve as a reminder to meeting participants of deliberations and/or actions, as an update for members unable to attend, and provide documentation for director's follow-up.

Minutes serve as a legal paper trail in case of litigation and serve as a record of the factors considered in decision-making. Copies of the Articles of Incorporation, bylaws, and minutes of recent board meetings are the primary documents

subpoenaed if the corporation is involved in any legal action. It is imperative that all minutes are always considered a priority and recorded professionally. This is one of the main reasons why minutes must be accurate and thorough. Board and committee minutes should provide a clear and concise summary of the meeting and reflect the board's due diligence in decision making. While the minutes should reflect the major discussions and decisions of the board, they should not contain confidential or protected information. Minutes should record the occurrence, final action taken, and be accompanied by relevant supporting documents, but not record the exact content of executive/closed sessions. The board is responsible for reviewing and approving all minutes.

It is very important that the quality of our minutes is detailed and thorough. These documents reflect the historical record of our actions and are official. Only minutes that have been approved by your committee will be posted up to the website. Once approved, please have the recording secretary make final edits, e-mail a soft copy to Alix, and print a hard copy for signature to be filed. Rainee will have her student assistant format the document into a PDF and post the minutes on the website.

Recording Committee Actions:

A.S.I. standing committees can form ad-hoc committees to research issues surrounding a particular need or pending decision. The question often arises as to how the actions of these committees should be reflected in the board minutes.

In many cases the committee's actions result in a report and recommendation to the full board. In these instances, the board minutes should reflect the recommendation and the committee's report should be attached to the minutes.

Taking Minutes During the Meeting:

If ever there was a gap between a job's glamour and its importance, such is the case for a recording secretary. It is of utmost importance to have the right person taking the minutes.

The recording secretary records minutes during the meeting, transfers the minutes into a professional, readable format, and submits the minutes to the board/committee for approval at the subsequent meeting. A.S.I. Administrative staff serves as the recording secretary for the A.S.I. Board of Directors, Executive Committee, and Personnel Committee. This provides better consistency and continuity with the A.S.I. minutes. This way, the A.S.I. Secretary/Treasurer can focus on the business of the meeting without the distraction of writing minutes during discussion.

For the other A.S.I. Standing Committees someone from the committee will have to serve as the recording secretary. See the COP if someone is designated to serve in that role or the responsibility may need to be determined by the chair. Unfortunately, recording good minutes during the meeting may prevent the recording secretary from adequately contributing to the discussion, but it can successfully be done.

To ensure the quality of the minutes, two committee members can record the minutes during the meeting. The main recording secretary will review both sets of working

minutes, formats the information to a readable format and presents the final draft at the subsequent meeting. This second set of working minutes also provides an unbiased “double-check” of what occurred at the meeting. Information that one recorder missed was probably picked up by the other.

A.S.I. Committee List of Chairs (CC), Recording Secretary (RS), and support staff (SS)

Recording and capturing minutes is the collective responsibility of each committee chairperson (CC), recording secretary (RS), support staff (SS), and the A.S.I. Administrative Office.

Once minutes are taken by the RS, they are to be transcribed within 72 hours by the RS. They should be sent for first draft review to the CC and SS for accuracy. Once approved the RS or CC should send the minutes out to all committee members to review prior to the next meeting; at least 72 hours prior.

Once minutes are approved by the committee, the RS needs to make any approved changes and print out a final copy for signature. The final draft should have the original agenda, amended agenda (if applicable), and all supporting documents.

The minutes should be signed by the RS and the Secretary/Treasurer and submitted to the Office Manager. The documents should be scanned and posted online by the A.S.I. Administrative Office.

A.S.I. Committee	Chair	Recording Secretary	Staff Support
Board of Directors	David Zitser , A.S.I. President	Alix Alcazar, Administrative Assistant to the ED	Intef W. Weser, Executive Director
Executive Committee	David Zitser , A.S.I. President	Dena Florez, Office Manager	Intef W. Weser, Executive Director
Personnel Committee	David Zitser , A.S.I. President	Dena Florez, Office Manager	Intef W. Weser, Executive Director
Strategic Planning Committee	David Zitser , A.S.I. President for 1 st Meeting	Dena Florez, Office Manager	Intef W. Weser, Executive Director
Cabinet of Commissioners	David Garcia , Vice President for Administration	TBD , Commissioner	Marcus Rodriguez, Director of Government Affairs & Leadership Programs
