<b>Class:</b>	Senior	<b>Friday:</b>	11:00 AM - 2PM

**1. What previous experience have you had in the area in which you are applying for?**

For the last year I have been attending meetings of the Los Angeles Food Policy Council Food Waste Prevention & Recovery Working Group. I have networked with group members who are on the cutting edge of food/soil sustainability and policy in Los Angeles and gained a wealth of information regarding the environmental effects of food waste and the benefits of composting. On National Food Day last year I created and ran a booth focused on Food Rescue and Recovery (composting and elimination of food waste). I also wrote a petition to garner student and faculty support for the elimination of food waste on campus, which received almost 100 signatures.

**2. State briefly why are you are applying and/or are interested in this position**

I am passionate about many environmental issues and want to help increase awareness and action about them. My current environmental obsession is Food Rescue and Recovery. I feel the environmental committee is the perfect place to express and garner support for my ideas while supporting the passions of others group members as well.

**3. What do you feel are some of the major problems facing the students of CSULA?**

I feel that food insecurity is a major issue for many students at CSULA, as evidenced by the results of Chancellor White's "Food Insecurity and Housing Displacement" study. The study showed that 1 in 4 CSU students are food insecure. Along with this, food waste is an environmental issue at the student housing at the CSULA dining hall. After every meal, uneaten prepared food is merely dumped in the trash, which eventually goes to a landfill. Although CalRecycle has begun a program for large organizations (i.e. CSULA) to keep organic waste from landfills, I feel that redistributing food to hungry students and/or local homeless shelters could provide a greater benefit.

**4. List activities and/or organizations that you have been involved with (on or off campus)**

Los Angeles Food Policy Council Food Waste Prevention & Recovery Working Group  
Student Dietetics Association (SDA) at CSULA  
Enrich LA (provides underserved schools with sustainable gardens and environmental education)  
Project Angel Food  
WIC

<b>Class:</b>	Junior	<b>Friday:</b>	8AM to 5PM

**1. What previous experience have you had in the area in which you are applying for?**

At a very young age my father taught me how to manage and save my money. Throughout the years, my father has taught me how to create a profit and loss statement for rental properties and how to create excel sheets, which helped me during my high school and college years. He also taught me how to balance books, which he did while volunteering for American Youth Soccer Organization (AYSO) a non-profit organization. Additionally, I have monthly investments in the stock market and a Roth IRA, which have helped me understand how these financial practices work.

**2. State briefly why are you are applying and/or are interested in this position**

I am truly interested in this position because I want to create an impact on the campus community. While attending Cal State Channel Islands, I did not involve myself in any extracurricular activities and that is something I wish I could have done differently. I want to be the voice for our students and be the change they want to see within our campus.

**3. What do you feel are some of the major problems facing the students of CSULA?**

Although I have only been on campus for a month, there have been quite a few problems I've heard the student body discuss. First, I have heard students voice their concerns regarding unhealthy food options on campus. Secondly, tuition rates are constantly rising and students do not fully understand the how the repayment method works. Lastly, I think students aren't aware of the resources that are available to them at Cal State LA, such as therapists, health care, scholarships, etc.

**4. List activities and/or organizations that you have been involved with (on or off campus)**

I have been involved with the American Youth Soccer Organization since the age of 14. I am no longer involved with the organization, but I continue to volunteer whenever time permits. Additionally, I joined Beta Alpha Psi and the Financial Management Association here at Cal State LA. If chosen for this position, I will commit myself to ensuring we have success within our department and the campus community.

**1. What previous experience have you had in the area in which you are applying for?**

I currently serve as the Alcohol, Tobacco, and Other Drugs Executive Committee Chair on the Student Health Advisory Committee here at Cal State LA. I supervise my cohort in the development and execution of health huts which are designed to educate students about Alcohol, Tobacco, and Other Drugs.

**2. State briefly why are you are applying and/or are interested in this position**

I am deeply passionate about Alcohol and Drug Awareness. There is no denying that alcohol and drugs are extremely relevant to college aged students and even if a student doesn't use a substance, there is a strong chance that they will encounter it at some point in their lives. Despite the ubiquity of alcohol and other drugs, people are often misinformed or simply uninformed about the topic. If selected, my goal would be to provide students with factual, practical, and relevant information in such a way that it sticks with them. I would also encourage students to educate themselves on the topic of alcohol and drug awareness by providing reputable and easy to read resources where they could seek further information. Another key aspect of my interest in this role is the fact that there is a certain stigma that can sometimes accompany the use of alcohol and other drugs. My goal would be to create a judgment free environment where this stigma does not apply, as I believe it is counter productive to a student's health and well being. Instead of stigmatizing or judging those who use alcohol and other drugs, I would want to ensure that students know the risks and implications that these substances have, and if they do choose to use them, then they should know how to do so safely.

**3. What do you feel are some of the major problems facing the students of CSULA?**

From my personal experience, CSULA is not regarded as a party school, nor does alcohol or drug use seem to be highly prevalent with students. Being a commuter campus, however, students are less likely to use alcohol and drugs on or near campus, making it less obvious to faculty and other students that it is being used at all. This can be problematic because it is harder for anyone to know if there is a problem facing the students of CSULA. This is why education should be provided to students so that, if they should use or encounter alcohol or drugs, they are prepared to make safe and healthy choices.

Within the Student Health Advisory Committee, we are trained to be certified peer health educators and we learn about many different health topics including Alcohol and Drug Awareness. More specifically I am a committee member of the Alcohol, Tobacco, and other Drugs committee within the Student Health Advisory Committee and we are tasked with coming up with entire Health Huts dedicated to informing students on these health topics. In addition to my involvement in the Alcohol, Tobacco, and other Drugs committee within the Student Health Advisory Committee, as a Public Health major we are required to take a Health and Wellness course in which we cover the importance and necessity of Alcohol and Drug awareness.

### 2. State briefly why are you are applying and/or are interested in this position

I am interested and applying to this position because as an active Public Health major and an active member of the Student Health Advisory Committee I am passionate about educating the student body on Alcohol and Drugs, and I am motivated to be involved in a committee where I can promote alcohol and drug awareness to help with the growth of my fellow students. I am also interested in this position because as a Public Health major, I have learned the importance of assessing the effectiveness of programs and it would be an amazing experience to be able to help with the development and growth of various campus-based programs that could benefit CalStateLA students. I think that this is a great way for me to get involved on campus while utilizing my personal skills and knowledge of Public Health and my peer health educator certification to contribute to the Alcohol and Drug Awareness committee.

### 3. What do you feel are some of the major problems facing the students of CSULA?

Considering the recent political environment there are many problems facing the students at CalStateLA. For starters, the rescinding of DACA is a huge stressor for many students and their families. This is a situation where students will have added stress to their daily life as a student. This affects many things and creates many more problems. For example, more stress can lead to worse grades, worse mental health, and it can cause students to feel helpless. If students start to feel helpless and are struggling to maintain their grades, this will cause them to be even more stressed on top of every other factor going on in their life. Students are faced with countless issues including having families they need to take care of, working full time while being a student, and also trying to get a good education while getting the most of their time here at CalStateLA. There exists a vicious cycle of poverty, stress, and poor health (mental and physical) within a majority of our students at CalStateLA and to address this we need to find and fix the problem at the root. This includes addressing macro level problems such as the rescinding of DACA to addressing micro level problems such as the mental well-being of students by providing mental health support on campus.

### 4. List activities and/or organizations that you have been involved with (on or off campus)

In terms of recent activities I have been involved with off-campus, this past summer I was a fellow of the CDC Undergraduate Public Health Scholars program. During which I was involved in various public health initiatives within Los Angeles including interning within Children's Hospital Los Angeles at the Division of Adolescent and Young Adult Medicine where I was working with LGBTQ youth and their specific health issues and needs. On campus, I am the Historian Chair of the Public Health Student Association where we host various events for students such as a career fair as well as educational seminars to help the success of public health students. Also, as mentioned before I am a certified peer health educator within the Student Health Advisory Committee (SHAC). Within SHAC I am a member of the Alcohol, Tobacco, and other Drugs committee.

**1. What previous experience have you had in the area in which you are applying for?**

I've been looking forward to applying for ASI for quite some time now -8 months that is- but was never sure on what position to apply for. After talking to some of the ASI staff, I decided to apply for the Lobby Corps position because it fits my description and my career goals that I am going to accomplish the best. And what better place to do it than on campus, for the campus, and for the fellow colleges. I have always worked in similar fields from past previous job opportunities that I have had from executive assistant planning for events, and now being associated with radio eagle on campus.

**2. State briefly why are you are applying and/or are interested in this position**

I am interested in the Lobby corps position for many reasons -one-mainly because I want to be associated with a branch in school like ASI, which is making a huge difference in CSULA and I want to be part of that.

**3. What do you feel are some of the major problems facing the students of CSULA?**

problems  
little student involvement  
low graduation rates

Solutions  
more student involvement results in more student dedication  
student commitment leads to more higher four-year graduation rate and better grades  
better grades results in better job opportunities

**1. What previous experience have you had in the area in which you are applying for?**

Well I have advocated for foster youth at ELAC and brought more information with regards to scholarships and other financial information. And serving as a board of director member for the U-SU and ASI I feel that I have enough experience to contribute to the position. I am also a fast learner so if I need to learn something I am more than willing to do so.

**2. State briefly why are you are applying and/or are interested in this position**

I am interested in the advocacy that's associated with the lobby corps. and being involved with regards to CSU policy and initiatives.

**3. What do you feel are some of the major problems facing the students of CSULA?**

One of the current problems that I believe are greatly impacting the students is the current decision made by 45th with regards to DACA. This as well as the lack of protections for students in the LGBTQIA community, because of the current political climate.

**4. List activities and/or organizations that you have been involved with (on or off campus)**

U-SU Board of Directors 2016-2018; ASI, Associate Justice 2016-2017; Alpha Sigma Tau Sorority, Director of Music & Greek Week Delegate 2015-2016; Collegiate Panhellenic Association, Alpha Sigma Tau Alternate Delegate 2015-2016; Order of Omega Honor Society; P3: Play, Promote, Participate; Golden Key International Honour Society; Her Campus at Cal State LA; New Student and Parent Programs, Orientation Leader; Boy Scouts of America, Troop 551, Venture & Den Leader; The National Society of Leadership and Success; Pre Law Society

**1. What previous experience have you had in the area in which you are applying for?**

I have represented an organization on campus multiple times in and outside of school and have spoken with various senators and political figures who are in public office. I believe I obtain information and experience to become a campus lobbyist representing Cal State Los Angeles.

**2. State briefly why are you are applying and/or are interested in this position**

I am applying for this position because I believe I can make an impact on campus and in a way be the voice for the students of CSULA. Also, in this time and age we need someone to take a stand and fight for what's truly right, and I personally believe I have the passion to do so.

**3. What do you feel are some of the major problems facing the students of CSULA?**

One major problem I have seen at CSULA is the parking issues and the limited space the school has to offer. I have also noticed that many students complain that the elevators in King Hall always break down (and around the school), and the time it takes to repair can take up to 2 weeks, give or take.

**4. List activities and/or organizations that you have been involved with (on or off campus)**

Kappa Sigma Fraternity  
 EPIC - Center for Engagement, Service, and the Public Good  
 Young Americans for Freedom  
 Afro Latin Jazz Ensemble
