**1. What previous experience have you had in the area in which you are applying for?**

I am currently one of the Undergraduate Academic Senators as well as State Lobby Corps Officer. I advocate for students on all matters of Academic affairs as well as any matters that may pertain to student life on the Student Policy Committee. I am currently assisting with CHES in securing meetings with state legislators and assisting Marcos with the delegation of students ASI will be sending. Moreover, I have worked on two adhoc committees to better improve ASIs internal workings and accountability, as well as elevating the on going issue in regards to funding the Anna Bing Child Care Center. Additionally, I have worked on multiple programs, such but not limited to, the 51st Assembly District debate and Open Deliberation. These are just a few of the many endeavors I have been apart of in my time here at ASI.

**2. State briefly why are you are applying and/or are interested in this position**

In regards to the organization, I want to bring stability to the position. Many important task are needed to be completed, the most pressing being impartial staff evaluations. The additional goals I want to take on are working with the Public Relations & Outreach Commissioner to increase the visibility and brand of ASI. Lastly, I want to work with the Veterans Resource Center to build a strong relationship with one of the departments we technically have a direct link too. To assist our former and current servicemen and women in achieving academic success. Personally, This is a rare opportunity for personal growth. I am seeking a position that will help me strengthen my leadership skills. I want to take on new challenges and help this organization grow to better assist student

**3. What do you feel are some of the major problems facing the students of CSULA?**

Student homelessness and food insecurity are the most pressing issues on campus, along with a statewide tuition increase. These issues are exacerbated when there is a strong disconnect between the students their student government. Additionally, when their student government is more invested in internal restructuring than addressing issues that pertain to students academic success, this creates a major problem.

**4. List activities and/or organizations that you have been involved with (on or off campus)**

**1. What previous experience have you had in the area in which you are applying for?**

Previously, I attended Rio Hondo Community College. I was President of the National Honor Society on campus, which was the largest organization on campus. I was in charge of enforcing our strict 20 hr participation, 20 hr volunteer, and 3.0 GPA guidelines. We always had high amounts of applications which I reviewed and had to make the final decision of their acceptance. I also had to speak to our managerial committee to be able to get funds and support for our events. We had to present our objective in front of a council then get voted on in order to receive School funds. I was able to receive funding for all of my events as well as our conferences around California. In my position, I learned to interact with other students and board members where sometimes we came to a compromise, but we still obtained the main goals.

**2. State briefly why are you are applying and/or are interested in this position**

I am interested in this position because I want to be more involved on campus as well as be able to help organizations and students be more involved on campus. As the Vice President of Administration I would be part of Spirit initiatives to help everyone be a part of what we do. We also touch basis on veteran services which I feel very strongly on supporting. My previous experiences have been very influential on the person I am today. I enjoy helping others and providing them with the information they need to get things done. I would love to be more involved on what direction we take as a campus and being a part of ASI as Vice President of Administration would help me achieve that.

**3. What do you feel are some of the major problems facing the students of CSULA?**

Many issues that students face is lack of information. Most students have issues on campus, but are not sure how to address them. Students have the power to make changes on campus and need the tools to do so. Clubs and organizations should have better access to information online. Now, everything is digitized and there should be more online support for everyone to have their questions answered. For example, there is funding available for clubs outside of their own money. If a club wants the campus to fund an event, they have to present a plan and budget to the council which will then vote on it. Although this is available, most student clubs are not aware of this opportunity. This lack of information could cause a club to miss out on an important event if they don't have the funds to pay for it themselves. There should be more communication with the students and the resources available to them.

**4. List activities and/or organizations that you have been involved with (on or off campus)**

On Campus:  
Maximizing Academics and Success in Science Secretary (MASS) - Secretary  
Chemistry and Biochemistry Club -Member  
MORE Programs - Bridges to the Future, RISE scholar and MARC\*Star Fellow  
LSAMP Program - Participant  
Research Laboratory - in Dr. Jamil Momand's Group

**1. What previous experience have you had in the area in which you are applying for?**

In my previous job I had the responsibility to facilitate and organize all of the events that were going on around campus and incorporate them within our program. In addition, if students wanted to get different kinds of funds implemented within our program, I would be the person that would notify our budget committee and would see if additional funds could be added into each student.

**2. State briefly why are you are applying and/or are interested in this position**

I believe that I have all of the requirements that this position is asking. I have worked for this campus before as an Orientation Leader and I loved the fact that I was their guidance throughout their first experience. What stood out to me about this position is the fact that I would have a very strong role within this organization, and I would love to expand my knowledge, I absolutely love this campus and if I know I will impact many student's life that would be more than enough for me. I am a very caring person and if I know I am going above and beyond in people's life to help them improve in everything and anything that would mean to me that I am doing my job correctly.

**3. What do you feel are some of the major problems facing the students of CSULA?**

Courses (either there is only a limited amount of open classes), cost per unit with class, parking, impacted majors, elevators not properly working (for disabled students).

**4. List activities and/or organizations that you have been involved with (on or off campus)**

As mentioned earlier I have been an Orientation Leader. In addition, this semester I am doing the Prison Education Project (PEP) where I work with incarcerated people to help them better their lives once they come out. Finally, I am working at a non-profit organization where I deal with parents and children better their lives. Some have had a tough path in their life and we are there to support them in every way that we could.

**1. What previous experience have you had in the area in which you are applying for?**

I have been the standing representative for the Arts and Letters College for the past 10 months. Through my time in office I have been responsible for executing many successful events and programs. Currently I am a voting member on the BOD, I have a strong overview and sense of the type of language presented at these meetings. I also applied for the personal committee prior to this position being open.

**2. State briefly why are you are applying and/or are interested in this position**

Hands down I am the most qualified candidate for this position. I am also running for this position next year so it would be great for me to get a head start and a feel for this position if elected. I've executed the implementation and plan for the A&L & Career Services Guest Speakers Series, A&L Meet & Greet, D-Stress and much more. I know the operations, programming, and budget allocations for all the Cabinet of Commissioners. I have the leadership, organizational, and qualifications to guide the COC in the right direction. When appointed, I will work and organize with each individual commissioner to have a good allocation of resources, programming, and initiatives to the Student Body. Also, it will be my duty to conduct a full collaboration plan among COC members, BOD members, and all Executives, to satisfy our mission as ASI.

In addition, I have the potential to be the chair of Personnel committee, which my knowledge on management will provide the most effective plan to work with all Staff and Student Staff. It's my priority to finish the the Mid-Year Evaluation Review for Staff asap, in order to implement an action plan. Following with the Annual Evaluation Review. Also, David already bring my direct report would be a very smooth transition because we meet on biweekly bases.

Lastly, I'd like to mention that if I say I am going to do something, I do it. Just like all the goals I set back during strategic planning in summer training, I met all of those goals. All the initiatives I said I was going to do, done. I plan on doing exactly what I said, and if elected I will get job done.

**3. What do you feel are some of the major problems facing the students of CSULA?**

Food insecurity, Tution Increase and Student Involvement.

**4. List activities and/or organizations that you have been involved with (on or off campus)**

**1. What previous experience have you had in the area in which you are applying for?**

My experience on a competitive speech and debate team has prepared me for the position of associate justice. An ability to interpret, edit, and apply codes and policies was specifically mentioned under position duties, skills honed through both the crafting of a speech in the drawing of sources, and in debate forums such as Congress and SPAR (spontaneous argumentation), both of which I participated in. The former requires extensive research on the discussed topic preceding the debate itself for a thorough understanding of the material and a willingness to dedicate time and effort. The latter relies on quick, efficient construction of arguments at the time of the debate (topics are not presented until then), requiring an ability to think on your toes and stay focused. I believe my success in both forms during my speech and debate career speaks of my capacity and interest in applying my skill set to this ASI position.

**2. State briefly why are you are applying and/or are interested in this position**

A majority of my reasoning behind applying for the position of associate justice stems from an interest in expanding my engagement within the Cal State LA community. As a first year I have yet to develop a full understanding and likely appreciation for the way CSULA is run; however, at this point in time, and at my current comfort level and success in my courses, I believe my skill set can contribute to ASI through the associate justice position. I look forward to the ability to consider current effectiveness and application of policy due to my potential affect on the student body, its personal impact on me as a student, and to an interest in pursuing law.

**3. What do you feel are some of the major problems facing the students of CSULA?**

Based on observations of close friends or recent classmates, students of CSULA are confronted with increasing, daily stress. This pressure stems not only from heavy homework loads and exams, but from the additional responsibility of juggling course work with a job. Though I do not doubt the availability of counselors at Cal State LA, even the most stressed of students frequently overlook counselors as a viable option to coping with stress, most often due to a claim of having no time. There is therefore a pressing need to provide accessible, time-conscious alternatives.

**4. List activities and/or organizations that you have been involved with (on or off campus)**

Along with past speech and debate experience, I provide campus tours and have been a dedicated oil painter for the past four years. I additionally assist with billing at Olympia Medical Center.

**1. What previous experience have you had in the area in which you are applying for?**

In high school, I participated in Model United Nations, where we used to focus on resolving certain issues. In this program, I was able to specialize in environmental issues, so by using my past experience from MUN, I will be able to successfully facilitate my assets into ASI. I have also participated in Boy Scouts of America, so I have learned environment solutions for the betterment of our society.

**2. State briefly why you are applying and/or are interested in this position**

I am interested in this position because I want to give back to CalState LA and help our students grow just as this school has done for me. By applying for this particular position, I will not only be able to fulfill that goal, but also do so passionately as I hope to pursue an environmentalist, public-service position in my future career.

**3. What do you feel are some of the major problems facing the students of CSULA?**

Some of the major problems we must address here at CalState LA would mainly be civic engagement and interactions. As the Environmental Affairs commissioner, I will strive to organize accessible programs where students can volunteer or help out in their own community. Since this is a commuter school, students may be busy; however, by the implementation of more publicized organizations and events, I hope this problem of engagement decreases.

**4. List activities and/or organizations that you have been involved with (on or off campus)**

Some organizations that I have been active with on campus include American Red Cross and the Biochemistry and Chemistry Club. Outside of school, I am active in Toastmasters and Boy Scouts, which have helped my community service experience.
