

Proposal for adjusting Executive Workflow

Purpose: This proposal serves 3 purposes. The first is to better utilize the time of Executives by pulling them out of the committees that aren't necessarily in their areas and have them focus on the committees/areas that they are. That in turn would allow the Executives to focus more on their respective areas. The second purpose is to adjust the Internal Committee requirement for Non-Executive Board of Directors from 1 committee to 2 committees so that the vacancies from removing Executives will still be filled and remove the External Committee requirement for all Executives. The third purpose is to give the Executive Committee an additional responsibility. That responsibility is to emphasize its role as the filter for the Board of Directors by having all items that are planned to go to the Board of Directors go to the Executive Committee beforehand.

Changes here will be reflected in the Bylaws, Board of Directors Code of Procedures, and each committee's Code of Procedures

Let's adjust this to adding more student-at-large seats in all committees which will take adjustments to different Codes of Procedure

The Executive Committee shall coordinate the information, program, projects, and problems to be considered by the ASI Board of Directors. **No Item recommended by ASI Standing Committee can reach the Board of Directors unless it has been reviewed by the Executive Committee.** The Executive Committee shall also provide general policy guidelines, and make specific decisions, in place of the entire Board of Directors only when the Board cannot be called together to act on an emergency matter.
