

# Club Funding Proposal

---

Authored by Aaron Castaneda and Barbara Hong

## I. Summary

Every year ASI allocated a certain part of their operating budget to Student Organization Direct Funding to directly reimburse student organization events that are benefiting the campus climate. These events range from fundraisers to banquets to conference. Over the last 4 years, ASI has seen a steady increase of student organizations utilizing this opportunity. The result of having club funding have been ASI being more well-known with students. A part of the Strategic Plan is finding out more ways to connect to student organizations. Club funding address this part of the Strategic Plan through student interactions by events held, through marketing by posting out logo, and through advocacy by supporting events that are trying to institute change or show a cause.

## II. Objective

ASI is the elected student government of Cal State LA, and it is the job of its members to listen to all student body from each part of the campus. Student organizations, who are some of the most involved students on campus, and are the forefront connecting with students. Obviously, ASI would like to be involved with all aspects of the University, but the reality is we cannot be involved because we are 40 ASI members versus 150+ student organizations with thousands of students combined. By providing more funds for club funding, student organizations can continue to thrive and connect students to our climate campus.

## III. Description

The ASI Finance division is requesting additional funds to finish out the year with the remaining funding requests. The Funding Sub-Committee has one more meeting this year on April 27, and ASI only has \$500 left to allocate. If approved, this will prevent ASI from turning down the final funding requests for student events.

## IV. Management

The ASI Funding Sub-Committee, with the oversight of the ASI Finance Committee, approves and monitors the amount of funds allocated to student organizations. The Funding Sub-Committee submits a report the Finance Committee to finalize the approval process of funding requests.

1. Budget

Remaining funds to allocate: \$500

Funding Requests collected as of 11am 4/20/18: \$18,000

Requesting: \$20,000

*\*(Club funding tracker is available on the website to view awarded amounts)*

V. Guidelines

Funds are allocated based on the ASI Financial Policies and Procedures listed on the ASI website.

VI. Criteria

These funds will benefit the student organizations by funding there events, as well as benefitting ASI by connecting us to the campus climate.
