Associated Students, Inc. 2018-19 Committee Appointment Application

Application Ref ID: 4191 | Submitted: Saturday, June 30, 2018 - 10:37am

First Name:	Raymond	Monday:	9:am to 12:00pm
Last Name:	Peters	Tuesday:	9:am to 12:00pm
Position:	Charter College of Education Representative	Wednesday:	Open schedule
Major:	Rehabilitation Services	Thursday:	Open Schedule
Class:	Junior	Friday:	9:am to 12:00

1. What previous experience have you had in the area in which you are applying for?

None.

2. State briefly why are you are applying and/or are interested in this position

First of all I want to state I truly love California State University Los Angeles. Being a student here is a dream come true. CSULA is like a little city within East Los Angeles and I would imagine it is a major challenge bringing the different facets of the population together. One of my desires is to bring awareness of the Rehabilitation Program to the other colleges at CSULA. I. Consider this major to be very special and unique.

3. What do you feel are some of the major problems facing the students of CSULA?

Wow this is a great question and I will attempt to answer it as best as possible. I have to major concerns which are inclusion and "True Diversity". Regarding inclusion I am very concerned about the lack of involvement of non traditional students in major campus activities. On several occasions when ever there is an event along the walkway and I see those tables representing different clubs etc all those involved are very young so I would imagine it may be sort of intimidating for non traditional students to get involved. Also as I am walking along the campus I see these older students on campus and the ones I watch seem to be just strolling along slowly with no excitement and I truly believe this is due to a lack of involvement. I very much am interested in this position because my involvement would give this population a visual of an older student playing a major role in campus life and my hopes this will encourage them to get involved.

Next I would like to address diversity. I think there is a lack of diversity at CSULA! On many occasions I see student hanging with other student who look like them. I see all the different clubs and once again they are with those who look like them be it the Black student union, the Asian club etc. As I am sitting in the class room as much as we talk about diversity most groups in the class room sit with those who look alike. This is not the real world. Something needs to be done on campus to promote the interaction of the many different races. We as students must learn how to have friends, be in study groups or partner with someone who looks different than us. I always say and I feel our training begins in the class room. How can a student even think about working in the counseling profession but yet you can't talk to your peer who looks different than you. What is going to happen when you get in the real world and start working and come across someone who looks like me 56 years old, African American, 234 lbs, what kind of service can I expect???? Will there be a problem because the student have not faced the biases etc during their academic career? This is exactly the place and the time to face them and talk about them before we start to work. There will be those who's life will depend on the type of service we provide them and we need to prepare now!!!!

4. List activities and/or organizations that you have been involved with (on or off campus)

I was involved with the rehabilitation counseling club, Aids Project Los Angeles, and "In the mean time' men's group in Los Angeles assisting men who have the HIV virus.

I have also attended past commencements at Cal State LA and therefore know how the end result should be .and what must be completed before the days of the commencements.

2. State briefly why are you are applying and/or are interested in this position

I would like to apply to this position to make sure that the thoughts of students who have seen commencement on the track field and the gym are heard. I would like to contribute my ideas to this commencement to make sure that the students have a great ending to their college experience with Cal State LA. I will work hard to make sure that students feel proud and accomplished by the end of the commencement and feel like they are still more than welcome to return as Alumni.

3. What do you feel are some of the major problems facing the students of CSULA?

Some major problems are financial literacy, not enough restaurants that accept food stamps on campus, providing healthier food options for students and lack of school spirit because of the belief that we are a commuter school (this causes alumni to feel no motivation in returning to contribute back to the Cal State LA community).

4. List activities and/or organizations that you have been involved with (on or off campus)

- Hispanic Business Society
- Latino Business Student Association
- Spirit squad 2014-2016
- Special Olympics volunteer 2015
- Chair for HBS Gala

Application Ref ID: 4212 | Submitted: Wednesday, July 11, 2018 - 9:01pm

First Name:	Diana	Monday:	
Last Name:	Chavez	Tuesday:	
Position:	Student Educational Equity Advisory	Wednesday:	
Major:	Political Science	Thursday:	
Class:	Sophomore	Friday:	

1. What previous experience have you had in the area in which you are applying for?

In my previous job I was an AVID tutor which stands for Advancement Via Individual Determination, and in the job meetings we will learn how to balance out my life, college, and tutoring students. They taught me how to be organize and how to advise students with their schedule and help them balance their personal life and academics. We also learned about time management and how important it is to jot down what time we will do homework, what time we will eat, and so on. I would use google docs and create calendars/agendas and pass them out to the students and sit with each one of them and advise them with anything they need advice on. I communicate and explain throughly because at times their teachers intimidate them when it comes to their life and education schedule.

2. State briefly why are you are applying and/or are interested in this position

I am applying for this position because I believe I can help incoming freshmen, transfers, and the rest of CSULA students on advising them to make the right decisions and motivate them to join clubs, and not be scared to try new things like classes or meet new people. I can help them by making a calendar or a template to help them visualize how to balance their classes and their personal life while participating in clubs at school. This will help the student become more involved at school while not stressing out about other things they may have at home.

3. What do you feel are some of the major problems facing the students of CSULA?

The advising is a problem at CSULA because I personally experienced a bad advising appointment. When I had an appointment with my advisor we agreed to meet up again a week after and when I went to check in the department told me I did not have an appointment, even though I received an email stating I had an appointment. The department changed my schedule to another day, which I feel is bad organization because I showed them proof that I made an appointment and they still changed it to another day. Also, the advisors confuse students about what classes they should take and at times they give them the wrong information and the students takes upper division classes when they should be taking lower division.

4. List activities and/or organizations that you have been involved with (on or off campus)

1. National Society of Collegiate Scholars
2. Speech and Debate Team
3. Tennis
