Associated Students, Inc. ASI Associate Justice Application 2018-19

Application Ref ID: 4441 | Submitted: Thursday, August 16, 2018 - 10:20pm

First Name:	John	Monday:	9AM to 10AM & 11AM to 12PM & 1:30 to 4:15
Last Name:	Lillis	Tuesday:	1:30PM to 6PM
Position:	Undergraduate Associate Justice	Wednesday:	9AM to 10AM & 11AM to 12PM & 1:30 to 4:15
Major:	Political Science and English	Thursday:	1:30PM to 6PM
Class:	Sophomore	Friday:	11AM to 4PM

1. What previous experience have you had in the area in which you are applying for?

I am currently the treasurer of the Early Entrance Program Club, which serves as the student government for the Early Entrance Program itself. The club is responsible for replicating a lot of the high school experience in early college by providing events, tutoring, and even yearbooks. I was primarily responsible for managing the budgets of the program, but my involvement went beyond that. I helped coordinate events, manage people, fight for fairness, and I often represented the club as a whole on official matters. I believe that these are all skills that would lend themselves nicely to being an associate justice.

2. State briefly why are you are applying and/or are interested in this position

Ever since I first entered Cal State LA I have always been fascinated and excited about student government. I have been becoming more and more passionate the more involved I am. It is really nice to be able to put in the work to help people and make the university experience better for everyone. Involvement in ASI, and more specifically being an associate justice, seems to be the best next step to help more and do more. My life experiences have imbued a passion for justice within me. This passion led me to seek out opportunities to hold up such values; it is even to blame for my interest in law school.

3. What do you feel are some of the major problems facing the students of CSULA?

I feel that many students are suffering from a lack of engagement, as the variety of different campus activities are not as apparent as they could be. The university experience should be so much more than just coming to campus, going to your class, and leaving. We should be fostering a community. When I first started wanting to be involved I was extremely confused. Opportunities didn't truly open up to me until I started to ask around and hunt them down. Additionally, the abundance of resources for students should be extremely well known. They are not alone in their problems, whether it is academic or otherwise. I have no doubt that keeping ASI smoothly and fairly running would help to resolve this issue. I would contribute as much as I can to the effort, utilizing my unique perspective, experience, and strong work ethic. I am sure that I will learn of countless other issues will pop up if I were to serve in ASI. If and when do, I will be more than willing to put in the serious work needed to fix them and improve our university.

4. List activities and/or organizations that you have been involved with (on or off campus)

As I previously mentioned, I have been a part of the Early Entrance Program Club, which has given me a good deal of pertinent experience. I also volunteered as a mentor for the Honors Academy, which is the summer program that evaluates provisional Early Entrance Program students for admission. Volunteering here demands professionalism and excellent communication and organizational skills. I also recently went on a study abroad and service trip to Costa Rica, where I worked to maintain the dog sanctuary known as the Land of the Strays. Relatively, this is not a vast amount of extracurriculars, but that is why I am applying in the first place: to grow, to help, and to be involved.

Class:	Senior	Friday:	8 am - 8pm

1. What previous experience have you had in the area in which you are applying for?

In the past, I have had leadership roles in representing students in my high school. I was involved in ASB, which stood for Associated Student Body. Currently at CSULA, I hold the responsibility of Social Chair with Hermanos Unidos. My main job is to represent my familia with other familia's at other UC's or CSU's and establish connections with the familia's.

2. State briefly why are you are applying and/or are interested in this position

I've been interested in joining ASI fro quite some time now, I've even made attempts to speak to past members. I had asked them to share their experience with ASI. After hearing them, my longing to join grew stronger. My reason to join was to become more involved on campus, starting with representing my college. I long term goal if I were to get the position I'm applying for is to get word out about ASI to students. Informing them that there is a student run government here for them and that they are being represented fairly. In saying this, perhaps students would get more involved with ASI and become more interested in it. I also have great interest in how student government runs on campus since I aspire to work in government as a career.

3. What do you feel are some of the major problems facing the students of CSULA?

Truthfully, I feel one of the biggest missed opportunities that face the students of CSULA is communication with there student body. For most students that I personally know, issues they have brought up in the past were not knowing what was happening within student body. Adding my personal experience as well, I feel there is very little transparency with what organizations, programs, and activities are happening on campus. Another problem I feel is apparent on campus is a lack of involvement with students on campus. I had the idea that CSULA was a commuter school, which lead me to not being involved on campus. It wasn't until I joined Hermanos Unidos de CSULA that I erased that stigma about college.

4. List activities and/or organizations that you have been involved with (on or off campus)

On campus, I'm currently involved with Hermanos Unidos de CSULA. I've been a member for two years, however, it wasn't until this past year that I become more involved with the organization. I look forward to continuing being an active member.

1. What previous experience have you had in the area in which you are applying for?

Although I do not have experience in student government, if given this opportunity I will do my best to help people at California State University, Los Angeles (Cal State LA). As a reliable and hardworking individual, I believe I can make a worthy contribution, and perhaps more so, during my years at the four year university. I also believe realizing my strengths and weaknesses will help me to become more self-conscious and a well-rounded individual. One of my greatest strengths at work that I have recognized would have to be my ability to be a well-organized individual. I believe that education can be used to help tackle community issues. I want to help college students receive the advisement they need for their time at Cal State LA and beyond in their career.

2. State briefly why are you are applying and/or are interested in this position

Throughout my life, my professors from California State University, Los Angeles have helped me gain insights into our ever-changing world and also introduced me to the field of Psychology. My professor Dr. Heidi Riggio suggested me to join student government if I was interested in helping other students such as myself. I did not know the process of student government at Cal State LA, and hopefully I can make a contribution to help people.

3. What do you feel are some of the major problems facing the students of CSULA?

There are a few things I personally faced. Although I can not speak for all Cal State LA students I feel that I can understand their struggles in many ways. I came into Cal State LA as a transfer student in my Fall 2016 year. I did not know much about the resources offered to students. Even though I got a tour around the campus, I still have a hard time finding opportunities. I had to look for opportunities myself including for scholarships, fellowships, and even internships. In the Spring 2018 semester, during my last semester of my undergraduate year I found the National and International Scholarship and Fellowship Program. I had been receiving advisement from Ms. Jessica Rodriguez for advisement for the opportunities I had been desperately looking for. Many of my peers do not know of this resource center, and rarely I see any students in the office seeking advisement for scholarships, fellowships, and internship advice. I am happy to find these resources on my own sooner rather than later after I graduated with my Bachelors degree. I am currently using this resource center for advisement as a graduate student. Many student are not aware that many resources on campus help students. Additionally, I feel that their needs to be more resources to help students with research or internship experience. This experience can help them in their career someday.

4. List activities and/or organizations that you have been involved with (on or off campus)

In my years at Girls Scouts, I tackled the community issues with my Gold Award project "Reading Rocks." I provided bilingual books to children and disadvantage people in the bilingual community. I donated over 500 bilingual books to the children's after school program. I created a reading corner for them with a bookshelf I purchased with the donation card from Walmart. I felt proud that I donated the books because it was a great impact for the community. My volunteer activities began in 2012 at Salazar Park Program in East Los Angeles to organize and collect donations to senior citizens and children. I find it extremely rewarding to donate my time into giving back to the community. I am currently volunteering at the Salazar Park Seniors Center by asking for donations and helping out with Thanksgiving and Christmas events for low income families. I consider education a great asset for solving many universal problems today, and giving education to people is one of many achievements to solve issues in the community. During my years of education I had received infinite awards at an early age for perfect attendance, and my academics. I had received numerous awards in the past for my involvement with the community needs, and my academic integrity. Some people do community service because they have to, but I do it because I want to. I have volunteered over 300 hours of community service during my years in Girls Scouts. In my years of Girl Scouts I had received infinite awards for my leadership skills and community volunteer work. Furthermore, I was able to achieve the Bronze, Silver and the highest award a Girl Scout can get is the Girl Scout Gold Award when I received it in 2012. Outside of Girls Scouts I had received numerous certificates for my community service for volunteering my time at the Ruben F. Salazar Park Program in the referrals office. Furthermore, I believe that community service and volunteerism are very important. The best thing a person can donate is their time. I feel it's every individual's responsibility to help others in their community and beyond.

I've worked at an EDD office explaining to clients of their benefits and rights.

2. State briefly why are you are applying and/or are interested in this position

I look forward to helping students learn about their rights in solving conflicts. Also learning what responsibilities we agree to as students and boundaries that are not to be crossed by other students, faculty, and staff.

3. What do you feel are some of the major problems facing the students of CSULA?

Students are misinformed about some of their resources and resolutions to solving conflict whether it be a professor or peer. This may hinder the success of the student if they have conflict and don't know how to resolve it.

4. List activities and/or organizations that you have been involved with (on or off campus)

1. What previous experience have you had in the area in which you are applying for?

I have previously assisted in advocating for student's rights and am currently working to figure out if the current policies are helping students or just making it harder for them to succeed.

2. State briefly why are you are applying and/or are interested in this position

As the Veterans Affairs Representative, I am always looking for ways to better assist student veterans. By sitting on this committee, I can not only advocate for better programs and policies for veteran students, but students as a whole. I feel that there is not enough student representation within these committees and I would like to change that.

3. What do you feel are some of the major problems facing the students of CSULA?

Involvement is always an issue with the students. We as ASI, are trying to focus on getting more students involved.

4. List activities and/or organizations that you have been involved with (on or off campus)

SALUTE Veterans National Honor Society
ASI
Student Veterans of America
Lobby Days Caucus
