Organization

Club/Organization: CSULA Autonomous Underwater Vehicle
 Event Title: RoboSub Build Day and Workshop Fall
 Date(s) of Event: 11/26/18 Semester Select One...
 Location of Event: E&T Building, Room C153-F
 Expected Total Attendance: 15
 Expected Attendance of Cal State LA Students: 15

Event Description and Total Cost Breakdown

Briefly describe the event:

We will be providing hands on experience 3D printing, testing, and programming for our organization members. We will also be hosting workshops to help students learn the software used on the project.

Is the event open to all Cal State LA students?: Select One... **No**

How will this program enhance the Cal State LA experience?:

We will be helping students gain real world project experience that will aid them when applying to jobs after graduation.

Hospitality

Description	Amount

STATEMENT REGARDING PROCEEDS TO BENEFIT TRANSACTIONS

As officers of this recognized student organization at Cal State LA, we affirm that all proceeds raised or assets assigned will be used solely for the benefit of the organization as a whole. Further, it is affirmed that no proceeds or assets of this organizations will accrue to the benefit of any officer, member, or any private person. We also affirm that all proceeds transactions for this event will comply with all University policies and procedures including but not limited to ICSUAM Policy 3141.01 and the Cal State LA Student Organization Funds Administration Policy. Describe the admission charge, registration, participation fee, or any proceeds that will be raised to benefit the organization. Please include how much the organization will be charging for any of these proceeds.

Our organization is not charging members for event attendance. We hope to obtain money from ASI to use towards materials for this event, which will be used for the sole purpose of meeting the goals of our organization (to create a robot to compete with at the annual competition).

PRESIDENT: [Redacted] SIGNATURE: [Signature] DATE: 11/8/18
 TREASURER: [Redacted] SIGNATURE: [Signature] DATE: 11/8/18

EVENT GUIDELINES

The following guidelines are provided for the benefit of the student organization. They are intended to be followed completely. Failure to comply with any of the following guidelines may result in disciplinary action taken against the organization including suspension of recognition, events and use of facilities. More information can be found online in the Student Organization Handbook.

- CONDUCT:** The organization assumes full responsibility for the conduct of participants at the event. Any violation of University policy may subject the participants and/or the organization to disciplinary action by the Center for Student Involvement or Student Conduct.
- ALCOHOL:** In accordance with Administrative Procedure 019 - Alcoholic Beverages, any event (on or off campus) that involves the consumption of alcoholic beverages requires authorization from the University. Your organization must complete and submit a Request to Serve Alcoholic Beverages form in addition to this Event Registration Form. Please allow at least 3 weeks for this form to be reviewed by the University. Approved alcohol consumption events and events held where alcohol is available (but will not be consumed) require at least two TIPS certified members and two Sexual Violence Prevention & Resources Trained (SVPT) members to be in attendance of the entire event. Additional guidelines may be enforced.
- PUBLICITY:** All publicity material must comply with University Administrative Procedures AP P003 and AP P007. All printed marketing to be used for marketing registered events are required to be stamped by CSI prior to their approved posting. Stamps can be obtained after the event has been registered. All printed material may be posted for up to a period of fourteen (14) calendar days. For student organizations, the "POSTING VALID THRU ____" stamp must be clearly visible on the face of the posting.
- GENERAL RELEASE:** If your event will require the use of general release waivers prior to organization member and guest participation, your organization is required to comply with all instructions provided by CSI, including submitting all completed forms and requested documents.

MY SIGNATURE BELOW INDICATES THAT I WILL TAKE RESPONSIBILITY TO ENSURE THAT THE EVENT WHICH MY ORGANIZATION IS SPONSORING WILL FOLLOW ALL GUIDELINES SET FORTH BY THE UNIVERSITY. I ACKNOWLEDGE THAT THIS EVENT AND ANY ASSOCIATED EVENT SPACE RESERVATIONS MAY BE SUBJECT TO CANCELLATION BASED ON MY ORGANIZATION'S RECOGNITION STATUS.

Printer w/ Black/White Filament
\$355.96

- **Support for All Filament Types:** The heated build plate and wide range of extruder temperatures allow this printer to work with any type of filament, from basic filaments, such as ABS and PLA, to more advanced materials, such as conductive PLA, wood and metal composites, or dissolvable PVA.
- **Quality Assurance/Technical Assistance:** Live chat at Monoprice.com Mon through Fri 6am – 6pm PST | Email at tech@monoprice.com | Phone at 877-271-2592 Mon through Fri 6am – 5pm PST.
- It extrudes at lower temperatures, does not require a heated base, and has a very low shrinkage rate
- Additionally, PLA is a plant-based plastic, which means that it is biodegradable and gives off a slightly sweet odor, like roasting corn

Tiva™ C Series TM4C123G LaunchPad

Description

The TM4C123G LaunchPad Evaluation Kit is a low-cost evaluation platform for ARM Cortex-M4F based microcontrollers from Texas Instruments. The design of the TM4C123G LaunchPad highlights the [TM4C123GH6PM](#) microcontroller with a USB 2.0 device interface and hibernation module.

The EK-TM4C123GXL also features programmable user buttons and an RGB LED for custom applications. The stackable headers of the TM4C123G LaunchPad BoosterPack™ XL Interface make it easy and simple to expand the functionality of the TM4C123G LaunchPad when interfacing to other peripherals with Texas Instruments MCU [BoosterPack](#).

Features

The ARM Cortex-M4F Based MCU TM4C123G LaunchPad Evaluation Kit (EK-TM4C123GXL) offers these features:

- High Performance [TM4C123GH6PM](#) MCU:
 - 80MHz 32-bit [ARM Cortex-M4-based microcontrollers](#) CPU
 - 256KB Flash, 32KB SRAM, 2KB EEPROM
 - Two Controller Area Network (CAN) modules
 - USB 2.0 Host/Device/OTG + PHY
 - Dual 12-bit 2MSPS ADCs, motion control PWMs
 - 8 UART, 6 I2C, 4 SPI
- On-board In-Circuit Debug Interface (ICDI)
- USB Micro-B plug to USB-A plug cable
- Preloaded RGB quick-start application
- ReadMe First quick-start guide

EK-TM4C123GXL [TivaWare™ for C Series software](#) is available for free downloads.

Elegoo EL-KIT-001 UNO R3 Project Complete Starter Kit with Tutorial for Arduino (63 Items)

by ELEGOO

287 customer reviews

53 answered questions

Price: \$53.99 & FREE Shipping. Details

- More than 200 components, this is the most complete Arduino starter kits you will find. Great value starter kits with 63 kinds of Arduino products
- Has all the Arduino products you need and a free PDF tutorial (more than 30 lessons) to show you how to use them. All code to use the modules is included on the CD
- All the modules come soldered so they are easy to wire up
- Includes UNO R3 controller board and USB cable, 100% compatible with Arduino UNO R3, Arduino kit
- Kit comes packaged in compartmentalized case with a bonus box for small parts like LED's, IC's, buttons, diodes, etc
