Privacy Notice

We know that you care how information about you is used and shared and we appreciate your trust that we will do so carefully and sensibly. This notice describes our privacy policy. **By visiting this site, you are accepting the practices described in this Privacy Notice.**

What personal information about customers does this site gather?

The information we learn from customers helps us personalize and continually improve your shopping experience at this site. Here are the types of information we gather:

Information You Give Us: We receive and store any information you enter on our Web site or give us in any other way. You can choose not to provide certain information, but then you might not be able to take advantage of many of our features. We use the information that you provide for such purposes as responding to your requests, customizing future shopping for you, improving our stores, and communicating with you.

Automatic Information: We receive and store certain types of information whenever you interact with us. For example, like many Web sites, we use "cookies" and we obtain certain types of information when your Web browser accesses this site. A number of companies offer utilities designed to help you visit Web sites anonymously. Although we will not be able to provide you with a personalized experience at this site if we cannot recognize you, we want you to be aware that these tools exist.

Information from Other Sources: We might receive information about you from other sources and add it to our account information.

What about cookies?

Cookies are alphanumeric identifiers that we transfer to your computer's hard drive through your Web browser to enable our systems to recognize your browser and to provide features in the purchasing process, personalized greetings, and storage of items in your shopping cart between visits.

The Help portion of the toolbar on most browsers will tell you how to prevent your browser from accepting new cookies, how to have the browser notify you when you receive a new cookie, or how to disable cookies altogether. However, cookies allow you to take full advantage of some of this site's coolest features and we recommend that you leave them turned on.

Does this site share the information it receives?

Information about our customers is an important part of our business and we are not in the business of selling it to others. We share customer information only as described below controls that either are subject to this Privacy Notice or follow practices at least as protective as those described in this Privacy Notice.

Affiliated Businesses We Do Not Control: We work closely with our affiliated businesses. You can tell when a third party is involved in your transactions and we share customer information related to those transactions with that third party.

Agents: We employ other companies and individuals to perform functions on our behalf. Examples include fulfilling orders, delivering packages, sending postal mail and email, removing repetitive information from customer lists, analyzing data, providing marketing assistance, providing search results and links (including paid listings and links), processing credit card payments, and providing customer service. They have access to personal information needed to perform their functions, but may not use it for other purposes.

Promotional Offers: Sometimes we send offers to selected groups of customers on behalf of other businesses. When we do this, we do not give that business your name and address.

Business Transfers: As we continue to develop our business, we might sell or buy stores, subsidiaries, or business units. In such transactions, customer information generally is one of the transferred business assets but remains subject to the promises made in any pre-existing Privacy Notice (unless, of course, the customer consents otherwise). Also, in the unlikely event that we are acquired or assigned, customer information will of course be one of the transferred assets.

Protection of Our Store and Others: We release account and other personal information when we believe release is appropriate to comply with the law; enforce or apply our Terms and Conditions of Use and other agreements; or protect the rights, property, or safety of this company, our users, or others. This includes exchanging information with other companies and organizations for fraud protection and credit risk reduction. Obviously, however, this does not include selling, renting, sharing, or otherwise disclosing personally identifiable information from customers for commercial purposes in violation of the commitments set forth in this Privacy Notice.

With Your Consent: Other than as set out above, you will receive notice when information about you might go to third parties, and you will have an opportunity to choose not to share the information.

How secure is information about me?

We work to protect the security of your information during transmission by using Secure Sockets Layer (SSL) software, which encrypts information you input.

We reveal only the last five digits of your credit card numbers when confirming an order. Of course, we transmit the entire credit card number to the appropriate credit card company during order processing.

It is important for you to protect against unauthorized access to your password and to your computer. Be sure to sign off when finished using a shared computer.

Which information can I access?

This site gives you access to a broad range of information about your account and your interactions with this site for the limited purpose of viewing and, in certain cases, updating that information.

Children

This site does not sell products for purchase by children. We sell children's products for purchase by adults. If you are under 18, you may use this site only with the involvement of a parent or guardian.

Conditions of Use, Notices, and Revisions

If you choose to visit this site, your visit and any dispute over privacy is subject to this Notice and our Terms and Conditions of Use, including limitations on damages, arbitration of disputes, and application of the law of this state. If you have any concern about privacy at this site, please contact us with a thorough description and we will try to resolve it.

Our business changes constantly and our Privacy Notice and the Terms and Conditions of Use will change also. We may email periodic reminders of our notices and conditions, unless you have instructed us not to, but you should check our Web site frequently to see recent changes. Unless stated otherwise, our current Privacy Notice applies to all information that we have about you and your account. We stand behind the promises we make, however, and will never materially change our policies and practices to make them less protective of customer information collected in the past without the consent of affected customers.

For example, you provide information when you search for a product; place an order through this site or one of our third-party sellers; make an auction bid or purchase; provide information in your account (and you might have more than one if you have used more than one email address when shopping with us) or about you; communicate with us by phone, email, or otherwise; complete a questionnaire or a contest entry form; provide employer information when opening a corporate account. During some visits we may use software tools such as JavaScript to measure and collect session information, including page response times, download errors, length of visits to certain pages, page interaction information (such as scrolling, clicks, and mouse-overs), and methods used to browse away from the page.

Privacy & Security Policy

Last updated: May 15, 2018

Autosales, Incorporated knows that you care about how your information is used and shared. We value our customers and are committed to protecting your privacy. All technically feasible steps are taken to protect your information. We do not sell or rent personal information. This policy applies to the Autosales, Incorporated owned and operated websites, and describes our privacy and security practices for the entire site.

What Information Do We Collect?

While using our website, we may ask you to provide us with certain personal information which allows us to better serve you. The types of information we collect is described in the following sections.

Information You Give Us

When you create an account, sign up for one of our services, purchase products, or communicate with us, we may ask you for information such as your name, phone number, email address, or other personal information. You may choose not to provide certain information, but some features or services may not be available without it.

Automatic Information

- **Log Information**

When you visit a website, you disclose certain information about yourself, such as your Internet Protocol (IP) address, browser type, browser version, the pages of our site that you visit, the time and date of your visit, the time spent on those pages, and other statistics. Autosales, Incorporated, like many other companies that operate websites, records this basic website activity information. Doing so helps us identify which areas of our site are of interest to our visitors. We review the IP addresses of our visitors for the purposes of system administration, to improve website content, and to verify web traffic to our site.

- **Cookies**

"Cookies" are simply pieces of information that are sent to your browser from a web server and stored on your computer. The use of cookies is standard practice on websites. Cookies allow us to provide you with a more personalized, convenient experience. For example, we may use cookies to help remind us of who you are and to deliver content and services based on your account, browse, and purchase information.

Most browsers are initially set up to accept cookies. If you prefer, you can reset your browser either to notify you when you receive cookies, or to refuse to accept cookies. You should understand that certain areas of many sites may not function properly if you set your browser to not accept cookies or if you reject cookies. Many anti-spyware/adware programs flag and/or delete persistent cookies like ours just to be on the safe side, but our cookies will never adversely affect the performance of your computer or your browser.

Information from Mobile

When you visit our website from your phone, or download and use our mobile app, we may receive information about your mobile device and location as well as a unique identifier for your device. We may use this information to provide services like messages, notifications, advertising, and other personalized content to you.

Information from Email Communication

If you are opted-in to receive marketing emails from us, the third-party email service provider we use collects data based on your interaction with our emails. We use this data to help us make emails more useful or interesting to our customers.

Information from Other Sources

Examples of information we receive from other sources may include updated delivery and address information from shipping providers or other third parties, which we use to deliver your next purchase or communication more easily; account information, purchase information, and page-view information from some third parties we partner with for technical, shipping, advertising/marketing, or other services; search term and search result information from some searches conducted through search engines, search results and links, including paid listings (such as Sponsored Links); and information from third-party financial institutions, which we use to help prevent and detect fraud, and to offer certain credit or financial offers to some customers.

How Do We Use the Information Collected?

In addition to any usage explained in sections of this policy, we may use collected data to provide and improve our services and communications. This is not limited to, but may include, using data to make automated decisions based on browsing or purchase history, and interaction with forms of communication from us, such as email, chat, or SMS messages; as well as sending/transferring data internationally for shipping and order fulfillment purposes.

Do We Share Information We Receive?

Protecting your information is important to us. We do not sell, rent, or otherwise disclose personal information from customers for commercial purposes. We may share customer information in the following ways:

- **Third-Party Service Providers:** We partner with other companies to perform functions on our behalf. Examples include fulfilling orders, delivering packages, sending postal mail and email, analyzing data, providing marketing assistance, providing search results and links (including paid listings and links), processing credit card payments, and providing customer service. These partners have access to personal information needed to perform these functions, but are not permitted to use it for any other purposes.
- **Instances When We Are Required:** We may disclose personal information when we believe in good faith that the law requires it; to enforce or apply our Terms Of Use and other agreements; or protect the rights, property, or safety of Autosales, Incorporated, or others.

How Is Your Information Protected?

The privacy and protection of your personal information is vitally important to us. Our site uses a secure server (SSL) to encrypt all of your personal information. We use strong security measures to prevent the loss, misuse, and alteration of your information once it is in our records. Your access to some services and content is password protected for security purposes. Companies under the direct control of Autosales, Incorporated may share information with one another, but each of our companies are equally committed to protecting your privacy.

Unfortunately, no data transmission over the Internet can be guaranteed to be 100-percent secure. Accordingly, despite our efforts to protect your personal information, Autosales, Incorporated cannot ensure or warrant the security of any information you transmit to us, or our online products or services. However, once we receive your transmission, we make every effort to ensure its security on our systems.

How Can You Help Protect Your Information?

We recommend that you do not divulge your user name and password to anyone. Autosales, Incorporated will never ask you for your password in an unsolicited phone call or in an unsolicited email. In addition, if applicable, you should remember to sign out of your account or service, and close out of the browser window at the end of each session, especially if you use a public or shared computer.

This website may contain links to other third-party sites. We take steps to link only to sites that share our high standards and respect for privacy. However, we are not responsible for the privacy standards and practices of third parties. Autosales, Incorporated strives to keep online visitor information secure against unauthorized access and use.

Data Access:

You can log in to your account to access personal information, and in some cases, to update it. Your name, phone number, email address, billing and shipping addresses, order history, wish list, customer reviews, questions and answers, and email preferences are some examples of the information you can access in your account.
