1. What previous experience have you had in the area in which you are applying for?

I am a transfer student who worked at my Community College for some time. I was part of the Research and Planning Department, working within the Office of Institutional Effectiveness and Accreditation. I became more involved on campus and off-campus with my communities through the networking done.

2. State briefly why you are applying and/or are interested in this position

I've just transferred, this is my second long semester, and I want to become involved again. I want to become active in my community. I want to do right by my fellow students. Becoming a part of ASI is my way of accomplishing this.

3. What do you feel are some of the major problems facing the students of CSULA?

Parking is a major issue. I know students that missed whole classes because they were looking for a parking spot. I think there should be more food options on campus. These food options should all be healthier and cheaper. Library hours should be extended even further, especially around midterms and finals for those who need more time and/or a safe place to study.

4. List activities and/or organizations that you have been involved with (on or off campus)

I am new to CSULA and haven't yet joined any organizations, but I might very well join one before the semester is over. At my Community College I was involved with an art gallery working with professors and displaying my own art. The event was celebrating the ELAC Writer's Society.
