### 1. What previous experience have you had in the area in which you are applying for?

The area in which I'm currently applying for is admittedly new to me, however I am a fast learner with a major in Communication Studies. With an emphasis on Mass media and experience with being someone who is a natural leader in situations, this would be a good fit as I can manage a team and keep things organized as efficiently as possible. Another area of expertise I have is that I am an effective communicator and am great at socializing/ networking with others. And in this position, an effective communicator who gets the (metaphorical) ball rolling is someone who is not only favorable, but necessary.

### 2. State briefly why are you are applying and/or are interested in this position

This position is definitely a position that I want to explore because my future career is involved in what this position has to offer. Being in Radio / Advertising is my goal and with doing radio, public relations and marketing is a huge part of the success. Being the commissioner of public relations and marketing would definitely be a great platform for me to learn and grow into the future career that I hope to land in the near future. This is definitely a calling for me and I am eager to show what I can do for not only the school, but for the students.

### 3. What do you feel are some of the major problems facing the students of CSULA?

The lack of attachment to the school is definitely one of the major problems that students face here at Cal State LA. When volunteering for CSI, I often times see a lot of the same familiar faces of students who are involved and go to the events her on campus. While most students claim the school is boring, yet, never know about any of the events here on campus. Which leads to the next problem that affects the students here on campus: a lack of communication between the students and organizations here that benefit them. Most students here always leave campus as soon as their classes finish and are always in a hurry, but in being in a rush, they miss out on the fliers or information of events that could enhance their college experience.

### 4. List activities and/or organizations that you have been involved with (on or off campus)

Currently, I am involved in the Center for Student Involvement (CSI), Golden Eagle Radio, National Society of Leadership and Success, and Golden Eagle Orientation (GEO).
