First Name:	Helen	Monday:	
Last Name:	Chan	Tuesday:	
Position:	ASI Environmental Policy Committee Member	Wednesday:	
Major:	Biochemistry	Thursday:	
Class:	Junior	Friday:	

1. What previous experience have you had in the area in which you are applying for?

In high school, I was briefly involved in a gardening club where we took care and planted plants in a small area in front of the gym.

2. State briefly why are you are applying and/or are interested in this position

I am interested in applying for a position in the environmental policy committee is because I am concerned with the state of the environment on campus. I have noticed some recycling and trash bins on campus were merged together and not separated. As the school is located near a freeway, the air we breathe may not be the healthiest. Thus, we should plant more vegetation around campus to purify and filter the toxins in the air. If I were to join the committee, I propose that we should place compost bins around campus to decompose any leftovers, fruit, and anything else that can decompose.

3. What do you feel are some of the major problems facing the students of CSULA?

I think a major problem facing the students of CSULA would be the lack of resource to be environmentally conscious even though we have recycling bins. One other major problem would be the air quality on campus.

4. List activities and/or organizations that you have been involved with (on or off campus)

An organization I have been involved on campus is the Chemistry and Biochemistry Club. In the Chemistry and Biochemistry Club, the position I hold is the archivist. As an archivist, I am in charge of keeping everyone and everything in check. With my position, one of my duties is to send and respond to emails. In all our meetings, I take notes of important details then upload them for members to see. Just in case they want to go back and refer to it or if they were not able to attend they can look at the notes to see what the meeting was about.
