1. What previous experience have you had in the area in which you are applying for?

The previous experience I've had was being an undergraduate academic senator for the term of 2018-2019. During my term I advocated to improve academic advising on campus in which I created a checklist for each enter to help students better prepare themselves before, during, and after an appointment. I also sat on various university-wide committees in which I was able to provide student perspectives on university issues.

2. State briefly why are you are applying and/or are interested in this position

I am applying because I want to keep advocating for students as I have new ideas to combat certain issues that students are facing. Also, I would like to finish my previous projects in order to combat the advising issues on campus.

3. What do you feel are some of the major problems facing the students of Cal State LA?

Some problems are poor academic advising and not enough support from advisors, a non-transparent university President's budget, and the lack of awareness between the students and university policies.

4. List activities and/or organizations that you have been involved with (on or off campus)
