1. What previous experience have you had in the area in which you are applying for?

Previously at my high school, I served as an ASB Event Planner and Cheer Captain, in which I was later appointed as President of the ASB board. I was also the President of the Youth Board at PACC. On these board and in school my responsibility was to create and plan out events for the youth in my community in order to encourage them to become more active members in the communities in which they reside in. These events were targeted, but not limited to, education, civic engagement, and much more. On this board, it was also my duty to attend and speak on panels at forums and round table discussions, and speak to elected officials on the state and national level in order to make a difference in my community. I tried to get students involved in school spirit and show their Yankee pride and want to be more involved with school.

2. State briefly why are you are applying and/or are interested in this position

I am applying for Spirit Commissioner because I would like to make a change in the school spirit here at Cal State LA. I believe that being involved on Halisis Steppers Dance team, the Cal State LA spirit squad, and BSU has allowed me to have an insider's perspective on the what the school spirit is like here at this institute and living the involved student life as a Golden Eagle. Because I have experienced this hands on and realized that it can improve tremendously, I would like to take a stance and be a part of this change and make a difference on this campus. I want to be able to leave something that students will remember for the rest of their life. I believe that increasing school spirit is important because it can improve someone's college experience while helping students create memories that they can have with them even after they graduate. I feel that we should all take pride in being Golden Eagles and when it is time to leave, we fly our wings into the real world with the memories of having our best college experience.

3. What do you feel are some of the major problems facing the students of Cal State LA?

I think the prominent issue that students face at CSULA is the lack of school spirit. Because CSULA is a commuters' campus consisted of mostly older students and local East LA students, it is challenging to have lots of students become involved in school events and showing up. I also think that a major problem facing the students of CSULA is parking. Of course, we all know that this has been a major issue for sometime. Because the amount of parking spaces is not, at least, somewhat equivalent to the amount of students, this can sometimes cause students to be late for class which in the long run can affect a student's overall performance in a class. Another issue students of CSULA face is culture awareness. I think that there are students interested in or ethnicities but are scared of diversity because it is not promoted on campus the way it should be. However, there is no culturally curriculum being taught or shown on campus which is a huge issue.

4. List activities and/or organizations that you have been involved with (on or off campus)

- * CSULA Spirit Squad
- * Halisis Steppers Dance team
- *BSU
- *People's Independent Church Youth Ministry/ Board
- * Praise Dancer/ Choreographer
