<b>Position:</b>	College of Engineering, Computer Science, and Technology Representative	<b>Wednesday:</b>	12:00PM to 2:00 PM

**1. What previous experience have you had in the area in which you are applying for?**

I was part of the student council in my high school in the student council, I attended meetings weekly, and discussed campus problems. We also planned and organized fundraisers. I also attend meetings at a small club in CSULA and I am currently drafting plans for future club events and workshops.

**2. State briefly why are you are applying and/or are interested in this position**

I am applying to become a College of Engineering, Computer Science, and Technology Representative. I am interested in this position because I want to gain more experience in interacting with others and I want to be able to gain working experience. I also want to apply my skills in a more practical working environment. This position would be able to help me further build my skills in oral communication and problem solving, which is an important skill to possess in future careers that I am interested in pursuing.

**3. What do you feel are some of the major problems facing the students of Cal State LA?**

Spaces for classes and academic activities at CSULA is a problem that I noticed after the experience of taking classes. There is currently not enough space for classes at CSULA. For OSD students, there are limited spaces for test taking especially during midterms and finals.

**4. List activities and/or organizations that you have been involved with (on or off campus)**

I volunteer as a musician for my local church ministry, St. Didacus Church. I am also an executive member of LAMusci, a small club at school.
