

State of Affairs Report

All ASI members shall submit a report to the ASI Secretary/Treasurer and the ASI President on the state of affairs of the Associated Students, Incorporated. This should be submitted in an essay format typically 1-2 pages. Please use this template to type your report.

State of Affairs reports are due by noon on the **Seventh (7) week** of the semester.

1. Major issues and problems facing the ASI with alternative plans of action.

Some major issues and problems facing ASI currently are low student representation in internal and campus-wide committees. A plan of action for unfilled committees would be increasing advertising and outreach as well as making the ASI website more clear in regards to the meeting times and responsibilities.

2. Major plans, programs, projects and activities undertaken by the ASI and their successors.

Some major programs/projects undertaken by ASI and their successors are the ASI Referendum 2019 and ASI club funding.

3. Proposed plans, programs, projects, and activities to be undertaken in the upcoming semester.

This semester, I want to reform the ASI Club Funding process based on data collected about other club funding processes employed by ASI's across the CSU system.

4. Current status of ASI staff and membership on committees and in the governance programs.

The current status of ASI staff and membership on committees and in the governance programs is good and extremely helpful because of all the insight and advice the ASI staff offers.

5. Financial Status Report

As of the Funding Sub-Committee Meeting on 3/22/19, we have allocated \$61,743.98 towards club funding.

6. How well the purpose, the long-range goals, the short-range goals, and the objectives of ASI that are being achieved.

I feel that this year ASI is becoming more visible on campus and there is a lot more awareness about our services. I see this pattern in the area of club funding, where it seems more and more clubs are coming to ASI to ask for funding.
