National Chemistry Week 2019 Closing Ceremony

About the event

Please describe what this event is about and include all intended activities that will take place.

National Chemistry Week is an event publicized by the American Chemical Society (ACS), the central national organization for all chemists and biochemists. Held on the week containing "Mole Day" (10/23, chosen for Avogadro's number 6.023×10^{23}), the events of the week aim to promote public awareness about chemistry. Our club board hopes to use the week to interest Cal State LA students in chemistry and biochemistry by hosting social events and providing information about chemistry subfields and careers. The theme of 2019 National Chemistry Week is "Marvellous Metals."

The club's closing ceremony will commemorate the end to a great week of chemistry with a social event held after the MORE programs seminar, complete with lunch from In-n-Out. With this final event, we hope to remind Cal State LA students of the great community of chemists and biochemists around them.
