Definitely yes	Moderately comfortable	The students would greatly benefit from more Microwaves. worrying about buying food or not having enough places to heat up your own food brought from home adds academic stress. Students will skip long microwave lines to attend class on time or skip meals. A minimum of One microwave per building would help everyone including staff.

Definitely yes	Extremely comfortable	Metro does not offer enough bus services for riders. They only offer the Silver Line, frequently, which is a more expensive bus. There used to be about 6 bus lines and they have been cut down to one; which runs infrequently. Sometimes there are 80+ students waiting to catch a bus at the busway. Sometimes many have to wait for a second or third bus. This is unfair. USC and UCLA students have multiple bus lines and CSULA students should too.
Probably yes	Slightly comfortable	better advisors
Definitely yes	Extremely comfortable	I don't have any concerns at the moment, thank you.
		Not a concern ,but i wish you can do a better job by making the school children to know more about social causes

		I think that the College of Natural and Social Sciences is doing a good job so far as well as ASI. I don't think that there is anything of concern right now, but if there is I will be sure to let ASI.
Probably yes	Moderately comfortable	
Probably yes	Extremely comfortable	Advising students with classes to take and helping students with what problems or concerns they have on campus. Issues like high parking fees and bathroom in king hall. Maybe try to explain to students how to get help in their education pertaining to their career, as there are many different jobs that students try to pursue and they might not be sure what courses/classes to take.
