ADMINISTRATIVE MANUAL

Approved:

A.S.I. Sustainability Guidelines

1 Purpose:

The purpose of the ASI Sustainability Guidelines is to establish CSULA ASI as a leader in sustainable practices; to educate ASI members on sustainability and promote environmental stewardship to better serve Cal State LA and the greater Los Angeles community.

3 Definitions:

- 3.1 **Sustainability:** Of, relating to, or being a method of harvesting or using a resource so that the resource is not depleted or permanently damaged. Of or relating to a lifestyle involving the use of sustainable methods.
 - 3.1.1 **Environmental Factors:** Wise and efficient use of natural resources while focusing on achieving maximum productivity with minimum waste by reducing pollution, gas emissions, and non-recyclable waste. Maintaining transparency and upholding responsibility of these practices.
 - 3.1.2 **Economic Factors:** Adopting policies and regulations as well as supporting industries that strive towards a sustainable and equitable market for consumers. Achieving remunerative financial and administrative management through sustainable practices.
 - 3.1.3 **Social Factors:** Advocating for an environment where the community is encouraged to participate in sustainable practices. Community engagement through learning and development opportunities.

3.2 Educational Awareness: Relating to educating on-campus community on the topic of environmental sustainability and environmental justice

3.2.1 **Environmental Literacy:** Addressing issues relating to ecological and socio-political knowledge, knowledge of environmental issues, improving cognitive skills, and encouraging environmentally responsible behaviors.

3.2.2 **Environmental Stewardship:** Increasing action taken by individuals and groups, with various levels of training, skills, and capacity to care, protect, and/or responsibly use the environment as it pertains to seeking environmental and/or social outcomes in diverse social–ecological contexts as it relates to the Cal State LA and greater Los Angeles community.

4.0 Procedural Guidelines:

ASI shall conduct, establish, encourage, and practice environmentally responsible and sustainable practices so to decrease its carbon footprint including but not limited to; be it through overhead office supplies purchased, recycling initiatives, providing an annual carbon footprint assessment, and recommending a switch to energy saving star appliances.

4.1 Provision of reports and/or missions related to sustainability at Cal State LA

4.1.1 The Environmental Policy Committee is tasked with providing and presenting reports including but not limited to: climate action reports, annual carbon footprint assessments, STARS reports, Zero Waste goals, and the CSU Sustainability Policy.
