

Going Sweatshop Free

ASI requires all Clubs and Organizations requesting funds for purchase of clothing and garments of any kind, to buy such items from a sweatshop free manufacturer and provide proof the business is sweatshop free. Clubs and organizations, when requesting ASI funding for clothing, will not be required to purchase only from the companies on this list however, it is strongly recommended.

If a club or organization does not want to follow this list, they are required to submit proof stating that the shirt manufacturer and/or printing company are **both** sweatshop free. This can be accomplished through a screenshot of an email saying that they are sweatshop free.
