State briefly why you are applying and/or are interested in this position

I could go on for hours about why I am interested in this position but I will keep it short and simple. I feel that our school has done an amazing job in providing resources for us and I want to be apart of students being more aware of these resources, especially ones involving mental health because of how common it is during these years in our lives. I also am interested because I feel that I would be able to provide a lot of work and dedication into this position, and that I would be learning a lot as well.

What do you feel are some of the major problems facing the students of Cal State LA?

Major problems Cal State LAs students face are unawareness, transportation issues, and financial issues. Students are very unaware of events where their voices can be heard, where they can network or even just basketball/soccer /baseball games where they can meet new people in order to improve their college experience. Transportation and parking fees are an issue that has been a struggle at our school for years with pricing and population. And students face financial issues during college and even after college, being unaware of resources has caused them to graduate with debt, or be unaware of what to do with their major.

List activities and/or organizations that you have been involved with (on or off campus)

On Campus : BSU meetings, PAS Events, LAS Events, Housing Events such as Isis "Things that will get you through college " and David " How to start a Business " , CAPS Workshops, EOP Events, Career Fairs, etc.
