State briefly why are you are applying and/or are interested in this position

As a political science student entering my first year as a graduate student, I envision a career to work as a political consultant, campaign manager, advisor, or actually run for office one day. As a former commissioner for the EPC, I have the experience to run the committee. I am passionate about environmental issues and have participated in a variety of environmental actions all across the city of Los Angeles. Having served as the commissioner for the EPC with no committee members I believe that I can get students involved in the EPC once more.

What do you feel are some of the major problems facing the students of Cal State LA?

I believe students need to understand how ASI can be a platform to express their voices within their student government. In my time with ASI I've seen first hand how students can get involved with their representatives to express their needs in regards to food insecurity, housing, classes, mental health, and many other issues. In my experience outside of ASI, I've come to learn how many students of color express their needs to fight for social issues like environmental issues, gentrification, impaction, etc.

List activities and/or organizations that you have been involved with (on or off campus)
