State briefly why are you are applying and/or are interested in this position

Being granted this position will allow me to grow as a leader and a public officer. I am a Political Science/Public Administration major and Chicano Studies Minor and hope to run for office or be a public servant in the near future. Being able to use this opportunity as a learning and developmental experience will be of great help to me. I am interested in making Cal State LA a power space for all incoming and continuing students.

What do you feel are some of the major problems facing the students of Cal State LA?

For many students being the first from your family to continue higher education is the first obstacle we face. It then continues with the commute from home to school. Access to food and the internet is another issue that many students face. One of the most urgent obstacles students face is finding the balance between their part time job(s) and education. You can really see the struggles of students when you take night classes. My day time classes are full of mostly younger students who are still dependents but most of the night time students are parents, essential workers, and/or independent students who have to come to school in the night because it's the only free time they have. I believe that for many students we see CSULA as a commuter school and it's important to make it more diverse and inclusive and make CSULA more than just a 4 year journey of school but a journey of self realization and home.

List activities and/or organizations that you have been involved with (on or off campus)
