What previous experience have you had in the area in which you are applying for?

Last summer, I was able to work at a IT Cybersecurity company in Peru briefly and participate in representing the company at Partner Summits in Brazil and have attended the McAfee Partner Summit in Las Vegas in previous years, with the same company.

In both of these roles and at these events I had to manage my time precisely, keep track of a tight schedule regarding orientations and organize myself in order to ensure a successful summit.

At the workplace, I was able to help vet incoming employees and quickly be able to tell if they would be a good fit for the role they were applying for and truly be committed to the company and helping it grow. I believe I am a good judge of character.

State briefly why are you are applying and/or are interested in this position

I am applying for this position because I believe with my Business Education I am receiving, due to being a student under the College of Business & Economics I can understand business terms and apply the skills I have learned in various Management & Business Law classes I've taken.

I recognize I am very inexperienced and have only recently joined ASI, but I am highly motivated to learn and truly feel I can help grow and expand ASI to even higher levels.

What do you feel are some of the major problems facing the students of Cal State LA?

I personally feel CSULA students could greatly benefit from better advising, whether at the New Student Orientation, International Student Orientation or at the level of each College's Academic Advisors, I think there is a lot of room to grow and we should strive to reach parity in the quality of advising across each College, with some currently being better than others.

I think another major problem is I'd say a majority of CSULA students, perhaps due to the nature of it originally being a commuter school, just come to school, take their class and go home. And they think that's all there is to CSULA. They don't know how to get involved on campus, with organizations such as ASI amongst many others and how getting involved on campus could greatly enrich their academic life and experience. I hope to personally be a part of changing that and getting more students involved.

List activities and/or organizations that you have been involved with (on or off campus)

On campus:

- CSULA Esports Association
- CSULA Coding Club
- CSULA Model United Nations

Off campus:

- Harvard Model United Nations Participant (HMUN)
- British Schools of Peru Competitions Participant (BSP)
- The United Nations Climate Change Conference, COP20 or CMP10, (2014, Lima, Peru) - Served as Interpreter for Politicians Present
