(Note: If you are a Charter College of Education Representative, have you declared a major in that College?) Yes

Undergraduate Applicants

Have you earned at least six (6)-semester units of academic credit per semester at Cal State LA during the past 12 months prior to application (not including remedial courses)? No

Will you be enrolled in at least six (6)-semester units of academic credit during the semester you are applying. No

Are you aware that you must be enrolled in a minimum of six (6) units per semester while in office? No

Are you aware that you must maintain a 2.5 GPA each semester while in office? No

Have you earned less than (150)-semester units? No

What previous experience have you had in the area in which you are applying for?

My previous experience student association involvement is one of a long journey. I have a vast knowledge about academic student integration, student government, the cycles of educational governance, and data collection. I have been involved in an academic student association that impacts education or culture every year since the 5th grade. I have a Masters degree in sociology (this of which student association and data collection and analysis was used and learned. I am also going for my Doctorates degree in the education- and its governmental system/ special education. Therefore, making me well aware and experience about methods and theories we can use to coagulate students, support our students, and impact lives with methods of monetary maintenance.

State briefly why are you are applying and/or are interested in this position

I am applying because this would be an excellent opportunity to progress in my field of Education. It will allow more hands on experience, personal school involvement, and a better understanding of CSULA's student society. As of now I am interested in becoming a member due to the fact I have never been involved in this particular program. I plan to learn as I go and take it one step at a time.

What do you feel are some of the major problems facing the students of Cal State LA?

The main problems basically come down to increase and governance in school programs, student class, and culture. Monetary situation are one of CSULA's main concern. The idea of having the ability to provide as much resources free of charge possible to students. The initiative of how to get the most of money. The structure of student programs are very differed. Many programs exist and are not even heard of until too late. Therefore utilization of services are not used. There are so many different programs that make it hectic. Simplification and organization is much more needed. As for class we have to realize (which we do but can do more efficiently) the monetary class our students some from. In order to associate there needs. As well as culture, where I think more cultural clubs can be active. Multiculturalism is an understanding needed to governance a academic setting efficiently. Also due to the fact CSULA is a "go to class and leave right away" type school (immediate involvement), we have to create a support for on the go students. Many student just do not have time to associate and receive student benefits.

List activities and/or organizations that you have been involved with (on or off campus)

Every student body or student council membership from the 5th grad until the end of my Bachelors degree. "Epilepsy and school" "SPECIAL" assistance (special education school system) and a original thesis on culture, class, and disability in Education for my Masters degree.

Contact
