**What previous experience have you had in the area in which you are applying for?**

I have experience in organizing programs and helping students with educational programs. I had volunteered at a kids summer program at my local park, and I often had to come up with events for the kids that benefitted their education. I had done paperwork, and helped with planning and setting up. I also have assisted within the EOP office, being a speaker at summer bridge and answering any questions the student may have while explaining my journey through Cal State La. I may not have much or recent experience but I am always eager to learn and be a great asset to the team..

**State briefly why you are applying and/or are interested in this position**

I want to be beneficial for the students. I want to be able to do things that I know will help them throughout their academic journey and help them succeed . As a student myself, and now as a member of the Board of ASI I have seen both worlds. I know what the students struggle with and how hard the Board and every other department is working to help benefit the students in any way possible. This will not only give me more experience, but it will also allow me to help make a change and continue on with the mission of NSS and as the University as well.

**What do you feel are some of the major problems facing the students of Cal State LA?**

Due to the circumstances, getting access to resources is an issue right now. On campus it was easy for students to walk into an office and help get directions and assistance right away, now with everything virtual it is much more difficult to get a response.

**List activities and/or organizations that you have been involved with (on or off campus)**

Outside of campus I helped a local health clinic with patient files and loading those files into computers. I have volunteered with Seeds of Hope, and have helped organized healthy cooking demonstrations to the local East LA Community, as well as helping preparing for food drives and farmers markets. Within campus, as stated earlier I was a speaker within the EOP summer bridge, and had helped with the activities during the event. I also explained my academic journey while being at Cal State La, explained my hardships my failures and my success, and answering any questions the incoming freshman may have. This academic semester, I am involved with ASI and had won the position of being one of the NSS College Representatives.
