During the Spring 2019 semester, I served as an undergraduate student representative for the Education Policy Committee. As such, I believe these skills will allow me to serve well as a student member in the Legislative Affairs Committee.

State briefly why are you are applying and/or are interested in this position

As an aspiring educator, I think highly of students and strive to work in the best interest of students. Legislation is an incredibly significant component of education, as it directly impacts students both within and outside the school environment. As such, I would like to learn more about legislation and be able to take part in discussing the legislations that impact our school community.

What do you feel are some of the major problems facing the students of Cal State LA?

One of the most significant problems that I believe the students of Cal State LA face is timely graduation. Unfortunately, a good portion of the student population at Cal State LA do not graduate within four years. This can result from personal circumstances such as work, family, children, availability of classes, and so forth. As a result, many student encounter the 120% rule, which does not allow them to receive financial aid to supplement paying for their studies. This is a hard and detrimental blow on students, especially those who come from lower socioeconomic communities.

List activities and/or organizations that you have been involved with (on or off campus)
