**What previous experience have you had in the area in which you are applying for?**

In high school I was a volunteer at USC Keck Medical Center, and there I was given the responsibilities of collecting comment cards, filing paperwork, entering classified patient files on the computer, and arranging gift baskets for patients on their birthdays. Then I became a volunteer at the USC Bookstore, and I was in charge of inventory, working the cash register, as well as rearranging paperwork from online orders.

**State briefly why are you are applying and/or are interested in this position**

I am interested in learning more about what the personnel committee does. It is something I may not have much experience in, but being new to this would make me more dedicated and eager to learn and to work alongside the rest of the members compared to someone who has done this before. It would be a great experience for me, and it would give me the opportunity to help benefit others along the way.

**What do you feel are some of the major problems facing the students of Cal State LA?**

One problem I would think of is communication and awareness, many students are not aware of these type of committees or that they are open to the public. During classes, many students have told me they didnt know what ASI does and what each committee is responsible for, and that them too can join in and become a committee member. With everything virtual now, I feel students feel more lost and feel misinformed most of the time, which can be stressful on them

**List activities and/or organizations that you have been involved with (on or off campus)**

On Campus, I have helped with the EOP Summer bridge event that occurs in the summer for incoming freshman. I also have been a speaker and explained my own journey throughout CSULA and answering any questions the students may have.

Off Campus, I have helped an organization, Seeds of Hope, with farmers markets, cooking classes, and food drives in the East LA area. I have also helped at a local health clinic in Huntington Park, with inputting patient files into their data base.
