About the event

Please describe what this event is about and include all intended activities that will take place.

The BurnSim workshop will simulate the solid propellant internal ballistics of a rocket. It is an important and valuable workshop for our Members.

Motor designs in BurnSim can be saved and recalled for later use which will have a long-lasting impact for the club. In addition, test data can be imported and graphed alongside simulation data to compare sims to results. BurnSim allows you to make notes about your propellants and motor designs, all saved in one convenient location.

Event Guidelines & Resources

Student Organization Event Guidellines

Fall 2020 Event Registration Procedures

The following guidelines are provided for the benefit of the student organization. They are intended to be followed completely. Failure to comply with any of the following guidelines may result in disciplinary action taken against the organization including suspension of recognition, events and use of facilities. More information can be found online in the [Student Organization Handbook](#).

In compliance with [University](#) and [local City and County of Los Angeles](#) guidelines, Cal State LA student organization events and meetings for Fall Semester 2020 **are required to be held in virtual format only**. This applies to the following types of previously held events and activities including but not limited to:

- Social events

Purchase BurnSim

[Home](#) | [Contact Us](#) | [Download](#) | [Activation](#) | [Purchase](#) | [Announcements](#) | [Tutorials](#) | [Back](#)

A single user BurnSim license costs **\$39.00**. BurnSim 2.x license holders can upgrade to 3.0 for \$14.00. The license entitles **one person** to install, activate (up to 5 times) and use BurnSim. The number of installs/activations is flexible, you wont be forced to purchase a new license if you reinstall windows 5 times over a period of time and have to reinstall BurnSim each time. However, if it becomes clear that the licensing policy is being abused (multiple users running under a single user license) the install limitations will be enforced.

See below for payment options.

A connection to the internet is required for the activation process (manual process is available for non-network connected machines). Once activated, an internet connection is not needed. Once you have purchased a license, open BurnSim and then select the menu item 'Help', then 'Activate BurnSim'. The activation dialog will open. Read and follow the instructions in that window. You will have to repeat the process of activation for each machine you install BurnSim on or if you reinstall the operating system. Please [contact us](#) for multi user or site license pricing.
