CLUB/ORG: CSULA Formula SAE  
 EVENT TITLE: Formula SAE - Open Design Discussion  
 DATE(S) OF EVENT: 12/12/2020 SEMESTER: FALL  
 EVENT LOCATION: FSAE Discord  
 TOTAL ATTENDANCE: 30  
 EXPECTED CAL STATE LA STUDENTS ATTENDANCE: 30

## PART 3 - EVENT DESCRIPTION

IS THE EVENT OPEN TO ALL CAL STATE LA STUDENTS?  YES  NO

BRIEFLY DESCRIBE THE EVENT:

This event will be an opportunity for the Cal State LA FSAE Team to talk about their designs to students as well as provide a relaxation time from finals for students

HOW WILL THIS PROGRAM ENHANCE THE CAL STATE LA EXPERIENCE?

This will enhance the Cal State LA student experience because it will allow students to talk about topics outside of the classroom to relax as well as meet other Cal State LA students during these tough times.

## PART 4 - COST BREAKDOWN

HOSPITALITY	DESCRIPTION:	AMOUNT:	HONORARIA / CONTRACTS	DESCRIPTION:	AMOUNT:

## Formula SAE - Open Design Discussion

**[APPROVED]**

Revised By: [REDACTED] on 11/24/2020 7:57:38 PM - Version 2

### Basic Information

Student organizations must complete and submit this form at least 10 business days prior to the event date. Reservations for on campus events will not be confirmed unless this form has been completed.

**Please select the type of organization who will be hosting this event.**

Student Organization

### Host Organization Name

What Organization/Department is hosting the event?

California State University, Los Angeles Formula Society of Automotive Engineers

### Event Name

Formula SAE - Open Design Discussion

### Estimated Attendance

Please describe the estimated attendance of participants for this event. Please note that based on your response, your organization may need to comply with additional campus policies and procedures before this event can be registered. For more information please refer to the Student Organization Handbook sections on Ticketing and Guidelines for Campus Facility Reservation.

30

### About the event

Please describe what this event is about and include all intended activities that will take place.

The Formula SAE Open Design Review is an event for the Formula SAE team to have a discussion with the general Cal State LA community regarding their designs and the Formula SAE team in general. Because of the event's proximity to Finals week, it will be structured as a relax and informal setting in order for people to look at designs, ask questions, and learn more about the Formula SAE team on campus. Overall, it will be a great way for the team to practice communicating their designs and Formula SAE in general as well as a time for students to relax from finals and spend time talking and discussion topics outside of classes.

## Time & Location

### Start Date/Time

12/12/2020 - 7:56 PM

### End Date/Time

12/12/2020 - 8:00 PM

Events that occur on non-consecutive dates will need to be registered separately per each date, (e.g. if you plan on having a food sale on multiple days in the month).

### Where will the event take place?

What online platform will this event use to host the event?

Zoom

Other (please describe)

**You've selected other. Please enter where you will be hosting this virtual event.**

FSAE Discord

### Specific Online URL Information

Include the full link where participants can access the virtual event (Zoom link, etc) or a link to where they can find information on how to access the event (Linktree, website, etc.)

[https://www.instagram.com/csula\\_fsae/?hl=en](https://www.instagram.com/csula_fsae/?hl=en)

### Is a password required to gain access?

Yes

## How can participants get access to the password?

By RSVP/Signing Up

## Do participants need to RSVP?

Yes

## How can participants RSVP for this event?

Online

## RSVP Link

Requires http:// or https://

[https://www.instagram.com/csula\\_fsae/?hl=en](https://www.instagram.com/csula_fsae/?hl=en)

## Student Organization Officer and Advisor Contact Information

Only current organization officers can submit the Event Registration Form. Submitted forms will require Advisor approval prior to CSI approval.

### Contact Person

Please provide the name of the officer submitting this form.

[REDACTED]

### Officer Contact Phone Number

[REDACTED]

### Contact Email

Provide the officer's email address.

[REDACTED]

### Organization Advisor Phone Number

[REDACTED]

### Organization Advisor Name

[REDACTED]

### Organization Advisor Email Field

Please ensure your advisor's email address is entered accurately. This Event Registration Form will be sent to your advisor for approval before CSI can approve it.

[REDACTED]

## How do you plan on marketing this event?

Social Media

### Social Media Site

Facebook

Instagram

Twitter

### Social Media Handle

csula\_fsae

### Printed Media Upload\*

If you plan on marketing this event with printed media, please upload a copy for review.

## What other methods of marketing will your organization use?

ECST Discord

## Who is invited to this event?

Cal State LA Community

## Will off-campus media be notified about this event?

No

## Tags

COMMUNITY BUILDING AND CELEBRATION

WORKSHOP/SEMINAR

## Cover Image

Please select an image that corresponds to your event.

## Event Details

### Event Category

Please select any of the categories above that best describes your event. Note, organization meetings do not need to be registered. For Fall 2020 all of these event categories must be held virtually.

Educational Workshop/Program

**Will the event have an admission charge, registration fee, or raise any proceeds to benefit the organization**

No

**Will you be requesting funding from Associated Students, Incorporated?**

For more information on Club and Organization Funding please visit: <https://asicalstatela.org/services/clubs-and-organizations-funding>

Yes

For more information on Club and Organization Funding please visit: <https://asicalstatela.org/services/clubs-and-organizations-funding>.  
For any other questions contact the Vice President for Finance by calling 323-343-4778.

### For this event, will your organization be seeking tax deductible private external fund raising support?

Are you seeking sponsorship from private individuals or external companies/organizations off campus that may require additional tax documentation? (Individual donations that do not require tax documentation do not count.)

No

### Will a movie be shown at this event?

No

## Acknowledgment

AS AN OFFICER OF THIS ORGANIZATION, I WILL TAKE RESPONSIBILITY TO ENSURE THAT THE EVENT WHICH MY ORGANIZATION IS SPONSORING WILL FOLLOW ALL GUIDELINES SET FORTH BY THE UNIVERSITY. I ACKNOWLEDGE THAT THIS EVENT AND ANY ASSOCIATED EVENT SPACE RESERVATIONS MAY BE SUBJECT TO CANCELLATION BASED ON MY ORGANIZATION'S RECOGNITION STATUS.

## Signature Pad Field

## Event Guidelines & Resources

### Student Organization Event Guidelines

#### Fall 2020 Event Registration Procedures

The following guidelines are provided for the benefit of the student organization. They are intended to be followed completely. Failure to comply with any of the following guidelines may result in disciplinary action taken against the organization including suspension of recognition, events and use of facilities. More information can be found online in the [Student Organization Handbook](#).

In compliance with [University](#) and [local City and County of Los Angeles](#) guidelines, Cal State LA student organization events and meetings for Fall Semester 2020 **are required to be held in virtual format only**. This applies to the following types of previously held events and activities including but not limited to:

- Social events

### DESCRIPTION

**ALL SALES ARE FINAL.**

**SOLD AS A PAIR, for FRONT OR REAR SPECIFICATIONS ONLY. PLEASE CALL US IF YOU HAVE ANY QUESTIONS.**

INCREASE TRACTION, LESS UN-SPRUNG MASS, MORE STROKE, INCREASED HANDLING. THE ONLY THING YOU WILL BE LOSING IS TRACK TIME.

As you might know, United States are the largest racer populated country in the world. Through our experiences from extensive testing in world class racing in Europe and Asia, we have great confidence that we can provide the same results in the US. Swift specifically designed a standard measurement race springs to accommodate American race industries including oval track racing, and drag racing, and offroad racing.

By knowing the main characteristics that American racer demands, we designed and engineered the standard measurement springs based on data that we had collected through racers that are at the top of their sport. A slight difference in design than our metric coilover springs.

Many enthusiasts will swap springs from brand to brand with the only noticeable difference being a stiffer or softer ride. But what if a spring could offer a noticeable increase in traction, smoother weight transfer, better ride quality, lower tire temperatures, and a more predictable feel? The engineers at Swift have taken that "what if" and turned it into reality.

All Swift Springs are manufactured using H5S.TW. which is far superior to typical silicone chrome steel and allows us to wind a much more responsive spring with less coils, resulting in reduced un-sprung weight and increased stroke.

Most of Swift 10" and longer springs (Excluding the Drag racing springs and Conventional springs) are barrel design; the design is to solve all spring Deflection (bowing) problems. With bowing springs, you can expect spring rate inconsistency, and rubbing against shock body that would lead to damage on the shock adjusting perch thread.

One approach to assess spring deflection would be to increase the number of coils on the springs. With more coils on the spring, you will experience less bowing motion. This is the easy and cheaper method to solve the issue. But the downside of this method is a decrease in spring stroke, increase in un-sprung mass, and will affect the overall movement of other suspension components.

Unlike others, Swift designed barrel springs with ease and consistency of vehicle setup in mind, our barrel springs design have a maximum of 4" outer diameter (except B5 and B3 series)(Usually located on the center coil of the spring). Because most other manufacture do not design their barrel springs with this rule, most of their barrel springs outside diameter will differ from one rate to another. This creates a hard time for racers especially with tight clearances to test and see

4.7 ★★★★★  
Google  
Customer Reviews

which rates will fit and which rate does not. A heavier rate spring can interfere with the suspension A-arm or other suspension components.

---

### DESCRIPTION

**ALL SALES ARE FINAL.**

**SOLD AS A PAIR, for FRONT OR REAR SPECIFICATIONS ONLY. PLEASE CALL US IF YOU HAVE ANY QUESTIONS.**

INCREASE TRACTION, LESS UN-SPRUNG MASS, MORE STROKE, INCREASED HANDLING. THE ONLY THING YOU WILL BE LOSING IS TRACK TIME.

As you might know, United States are the largest racer populated country in the world. Through our experiences from extensive testing in world class racing in Europe and Asia, we have great confidence that we can provide the same results in the US. Swift specifically designed a standard measurement race springs to accommodate American race industries including oval track racing, and drag racing, and offroad racing.

By knowing the main characteristics that American racer demands, we designed and engineered the standard measurement springs based on data that we had collected through racers that are at the top of their sport. A slight difference in design than our metric coilover springs.

Many enthusiasts will swap springs from brand to brand with the only noticeable difference being a stiffer or softer ride. But what if a spring could offer a noticeable increase in traction, smoother weight transfer, better ride quality, lower tire temperatures, and a more predictable feel? The engineers at Swift have taken that "what if" and turned it into reality.

All Swift Springs are manufactured using H5S.TW. which is far superior to typical silicone chrome steel and allows us to wind a much more responsive spring with less coils, resulting in reduced un-sprung weight and increased stroke.

Most of Swift 10" and longer springs (Excluding the Drag racing springs and Conventional springs) are barrel design; the design is to solve all spring Deflection (bowing) problems. With bowing springs, you can expect spring rate inconsistency, and rubbing against shock body that would lead to damage on the shock adjusting perch thread.

One approach to assess spring deflection would be to increase the number of coils on the springs. With more coils on the spring, you will experience less bowing motion. This is the easy and cheaper method to solve the issue. But the downside of this method is a decrease in spring stroke, increase in un-sprung mass, and will affect the overall movement of other suspension components.

Unlike others, Swift designed barrel springs with ease and consistency of vehicle setup in mind, our barrel springs design have a maximum of 4" outer diameter (except B5 and B3 series)(Usually located on the center coil of the spring). Because most other manufacture do not design their barrel springs with this rule, most of their barrel springs outside diameter will differ from one rate to another. This creates a hard time for racers especially with tight clearances to test and see

Customer Reviews

which rates will fit and which rate does not. A heavier rate spring can interfere with the suspension A-arm or other suspension components.

### HELPFUL INFO

Most orders are shipped within 1-3 days. However, some items are special order and will take longer. **We will contact you by phone, SMS text message, or e-mail if an item is out of stock and needs time to be fulfilled.** You can also give us a call, message us on livechat, or e-mail if you'd like to check if an item(s) is currently available before ordering. Our office hours are 9am-6pm, Mon to Fri, Pacific Standard Time.

**[sales@evasivemotorsports.com](mailto:sales@evasivemotorsports.com)**  
**(626) 336-3400**

### PAYMENT REQUIREMENTS

- 1.) The billing address you provide must match that of your credit card. This is for the protection of our customers.
- 2.) You must enter a valid Street Address, City, State, and ZIP. The ZIP code must be registered to your provided city and state.
- 3.) P.O. Boxes and APO addresses are not accepted online. Please contact us directly if you require shipping to such an address.
- 4.) If you are still having trouble processing a credit card payment, try checking out with PayPal (also works with your credit card), or give us a call during office hours.

**Hawaii, Alaska Customers:** If you are from Hawaii or Alaska, products do not qualify for free shipping. For the most accurate shipping quote, contact us by phone or email. We can also ship via USPS if requested.

**International Customers (OUTSIDE U.S.):** If you are from outside of the U.S., products do not qualify for free shipping. We do not process payments through our site for International orders. You **MUST** contact us for estimates and payment instructions via e-mail or telephone.

**Will Call / Pick-up Orders:** Please contact us by phone or e-mail to get estimates and availability for will call / pick-up. Do **NOT** order on our site if you want to pick up an order. All will call orders must be pre-paid and picked up by appointment only.
