**State briefly why you are applying and/or are interested in this position**

I am applying for this position because I wanted to continue advocating and supporting the needs of our students here at Cal State LA. I also would like to continue and grow as a leader, in my own professional and personal development. I would like to also apply the skills that I have acquired and gain new skills and experience. I am interested in helping to reach out to students and help them get involved on campus to experience what it is like to soar as a golden eagle. I want to apply my skills as leader to help make sure that all goes well and according to plan during election season. In addition, helping students be aware of deadlines and resources they need to succeed at Cal State LA. Lastly, I am interested in this position because I want to ensure that the information that I acquire and knowledge gets back to the student body so they feel like they too have a seat at the table.

**What do you feel are some of the major problems facing the students of Cal State LA?**

Some of the major problems that students are facing are not knowing about the resources and programs that we have campus, limited access to advising, lack of communication between professor and student, access to tutoring for all disciplines, and lack of knowledge on opportunities for professional growth.

**List activities and/or organizations that you have been involved with (on or off campus)**
