What previous experience have you had in the area in which you are applying for?

I have worked in the CSU as a Career Coach with students and see the need for advocating and supporting the student's rights and creating policies to achieve quality resources. As a Career Coach and as a Student Facilitator for students with disabilities at Citrus college I have seen the impact the lack of resources can affect the quality of education students could receive. I have worked with all students as an academic counselor who were underserved and underrepresented, it was through advocating and empowering the students that I gained great communication skills and interpersonal skills.

State briefly why are you are applying and/or are interested in this position

I want to help in creating an equitable and enriched academic experience. It is through my resilience as a first-generation student to move towards a more socially and racially-just academic community and help build bridges for students. In order to help increase the graduation rate, it needs to come from making sure the support and resources are there for students from all backgrounds and I hope to create some change in policies and advocate for the graduate students.

What do you feel are some of the major problems facing the students of Cal State LA?

The gap in low SES students and graduating due to lack of financial aid along with other struggles such as mental health. I feel a great deal of the obstacles in students not graduating is due to lack of resources and lack of mental health support.
