State briefly why are you are applying and/or are interested in this position

My passion comes from wanting to act as a synergy for constructing partnerships and managing resources efficiently and effectively. With willpower and real determination, I managed to make events and projects possible even with no internal funding or limited funding through sponsorships and grants in the past.

What do you feel are some of the major problems facing the students of Cal State LA?

As a graduate student who started studying in Fall 2020, I haven't really had an on-campus experience; but I am keen to learn about the students' major problems at Cal State LA. With proper briefing and dialogue among student leaders of different clubs, we will gain more insights into how we can holistically approach these challenges and learn as we go along the process and be versatile.
