State briefly why are you are applying and/or are interested in this position

I am applying for this position because environmental policy is something I am interested in. I found environmental science interesting ever since I took AP Environmental Science in high school. I think environmental policies can bring good changes to Cal State LA. I remember when the cafes and food court stopped using plastic straws and transitioned into environmentally friendly straws. I think that was a great policy and I hope EPC continues to bring environmentally changes to Cal State LA.

What do you feel are some of the major problems facing the students of Cal State LA?

I think a problem Cal State LA students may be transitioning back to on-campus. Even though, some people have on-campus classes in the Fall 2021 semester, there are still certain things that need to be addressed. For instance, how mask enforcement will look like because we still need to keep our masks on indoors. In general, we want to make sure everyone is safe.
