Representative, have you declared a major in that College?

What previous experience have you had in the area in which you are applying for?

Previous experience in the area being applied for includes having served on the student leadership team at my undergraduate university. I was elected to the College of Arts and Sciences senator and that is in relation to this new position I am applying for.

State briefly why are you are applying and/or are interested in this position

One of the primary reasons I am applying and interested in this position is because I love to get involved and take advantage of every opportunity to do so. I want to make a difference for the University and give back to the community within this position.

What do you feel are some of the major problems facing the students of Cal State LA?

One of the major issues is the student representation in the math and science department here on campus. When the general public hears of Cal State LA, one does not immediately think of the talent in math and sciences. Therefore, I would like to change that notion and uplift the outstanding student and faculty contributions. Additionally, since this is a position for student policy, I would like to alter the course requirements for different majors/subject areas to make it more useful for the student.

List activities and/or organizations that you have been involved with (on or off campus)

Activities involved include the Physics and Astronomy Club, student teaching, and possibly some other leadership activities.

what activities, work, or clubs/organizations do you PLAN to be a part of this coming year? List any leadership roles you will hold.

I intend to hold different meetings for my club to engage the CSULA community especially in the sciences. Additionally, I would like to hold other meetings for students to come together and share each others' interests and build upon their strengths.
