

Cal State LA 75th Anniversary Time Capsule Task Force

The purpose of this task force is to assist the university administration in the 2022-2023 celebration of CSULA's 75th-anniversary, especially in the collection and coordination of items for the planned time capsule to be buried in the 22-23 academic year. The task force members will be chosen voluntarily from ASI CSULA officer membership.

The task force will be co-chaired by the Vice President for Administration and the Spirit Commissioner.

Purpose and Charge:

The task force's general mission is to advise the university on items to be placed in the time capsule and more broadly on the 75th-anniversary celebration. The task force is charged to consider the interests of various campus groups and communities in their contributions to the time capsule. Finally, the task force must determine student opinions on items to be placed in the time capsule, using methods such as direct surveys, contacting the campus press, and communicating with individual departments and communities. The deadline for such actions is the end of the fall semester of 2022.
