IV. Information Item

V. Discussion Item

a. Revisions to [Reserve Policy – 207](#)

- Barnaby explains the revisions:
 - o 4.A – outline that our reserves are held in LAIF, everything is in one account but in separate categories (Current Operations, Planned Replacement and Acquisitions, Future Operations and Acquisitions). Trailer system – adding this from Policy 219 and having a trailer system allows us to budget with actual fees collected.
 - o 4.B – instead of having minimum amount per category, we will set aside a minimum of 5% in total for all discretionary reserve categories.
 - o 4.C – updated language and we will review the reserve annually and doing quarterly budget reviews.
- Amit asked if we get to choose what we invest in. Barnaby answered it is state mandated on where it is invested, and we don't have a say.
- Yahir asked for more clarification on each discretionary reserve categories.
- Barnaby clarified further:
 - o Current Operations – setting aside money incase sometimes comes up within the current year
 - o Planned Replacement and Acquisitions – planning ahead, replacing technology, equipment. We are on a 5-year replacement plan
 - o Future Operations and Acquisitions – if we need to fund a new operation, campaign
- Yahir explains he sees why we would need a reserve, but from a student perspective they would want to funds used to enhance their experiences – students wants us to do more (programming, basic needs)
- Barnaby explains 95% of the budget is going back to the students, and 5% for next year is only \$60,000. Having a reserve as a corporation is necessary because if not if there's a lawsuit, earthquake, etc. we can wipe out our budget and we would have to close and shut down the student government.
- Dena explains what a trailer system is and that our current reserve policy is at 20%. This revision is bringing it down to 5% and we have the reflexibility on what percentage we want to allocate to each discretionary reserve category. Additionally, our student fee has not changed in over 20 years.
- Barnaby states as enrollment is dropping, we will be using our reserves to fund the budget for the next couple of years
- Jenny asked does the 5% fluctuate every year as we see enrollment is decreasing or is it a set amount?
- Barnaby answers it is 5% of our revenue (student fees), it is all depended on the student fees collected
- Yahir stated we need to keep in mind, that we are the stewards of the student body fees and we need to ensure we are making the best used of them.

b. Recommendation to retire [Trailer System Model Policy - 219](#)

- Barnaby explains the reason the policy should be retired. This policy was how ASI was going to establish a trailer system and we have had a trailer system for several years now and is no longing needed. Previously, ASI's budget was based on the fees collected the same year – ASI would draft up a proposed budget based on proposed student enrollment and would have to adjust if enrollment was not where it was proposed at.
- Yahir asked does this policy have a correlation to Policy 207

- Barnaby further explains the policy
- Each member of the committee stated their opinion on both policies.

VI. Reports

- **ASI Vice President for Finance**
- **ASI Vice Chair for Finance**
- **ASI Executive Director**
 - Barnaby Peake: Shared we will start discussing next year’s 2024-2025 budget soon, so ask a lot of questions.
