V. Discussion Items

A. The ideal student experiences

B&D: They presented the **Student Programs, Services, Fees, and Experience Analysis**, beginning with the project context, initial findings, and key pillars.

They walked through the **project work plan**, which moves from project initiation, mission, vision, and student experience → to data analysis → to their current stage of campus and community engagement → and next steps including financial modeling, recommendations, and strategy.

They shared examples of what other student unions have tried and what proved successful, then reviewed **student engagement events** such as the Involvement Fair and Harvest Festival, highlighting major student feedback.

They noted ongoing **awareness challenges**, with many students unaware of CSULA’s services for long periods of time.

Survey findings were presented, including demographics—**65% in-person students** and **90% living off campus**—as well as analytics on what students feel is missing, how often they would use ASI spaces and programs, and their awareness and usage of current USU offerings.

They also covered **future student preferences**, such as more food options, quiet study rooms, and additional lounge areas, while emphasizing that **more space** is needed before these additions can be made.

They concluded with their three key pillars:

1. **Connection & Belonging** - Creating a central campus hub where students feel seen and connected.
2. **Wellness & Daily Functionality** - Integrating comfort and support into students' daily routines.
3. **Visibility & Access to Opportunity** - Making ASI and USU offerings clear, accessible, and hard to miss

Aisha: Asks questions based on knowing if the percentage of students works night or day shift?

B&D: We didn't go into that level of detail. We only asked whether students were part-time or full-time. The additional information we shared was based on their class times, not their full living or attendance demographics.

B. World Cup and Olympics

Arwa: Reports on VP Day and Blanca shared with her on the opportunities coming, such as the volunteer crew. Shares all that has been brainstormed and ideas.

Gabriel: Shares they just want to come up with things, so when the time comes, they know how we can help and want it ASAP.

Ashley: Wants to hear ideas to get students to volunteer.

Jeffery: Shares thoughts.

Diana: Shares her thoughts.

Barnaby: Shares thoughts on encouraging to promote this but also shares what if we do events leading up to this, so we can get them involved and have fun with this, but also what if they do an Olympics for the students, but we don't have the amount allocated, so we would need help and collaboration.

Genesis: Shares her thoughts on maybe offering that we can do set-ups and more.

B. ASI Chief of Staff

C. ASI Vice President for Community Engagement
